Executive Director's Report
Remembrance
DRS family member, Mr. Matt DeJonge, Professional Relations Officer, Disability Determination Services, passed away unexpectedly on February 16, 2020. Matt had been employed with the DRS/DDS since 2004. He began his career as a Disability Specialist, progressing through all levels. In the last few years, Matt served as a Professional Relations Officer working with medical vendors who perform consultative examinations for the DDS. He had just completed work on a cost-savings initiative for the service provided by the Oklahoma City metro area medical vendors with whom he worked. Matt was a valued member of the DDS and a friend to all who knew him and he leaves behind a legacy of friendship, service, and stewardship.

Executive
Director and staff attended the Career Opportunity Expo at Shepherd Center, Oklahoma City, on February 11. The Business Services Program did an exceptional job in planning, coordinating and executing the expo. Notable mention goes to Fatos Floyd as the leader of this event.

Director, Stephanie Roe, and Charlie Watt met with the Access for All team regarding the progress made on the star accessibility framework. The Access for All initiative sets the state strategy for the accessibility for the workforce system. The Star Accessibility Framework operationalizes the strategy by providing resources and a tool for measuring progress.

Director and staff met for the VR/SBVI Performance Team meeting on February 13.

Director and staff attended the second bi-lingual workshop meeting at OSD on February 14.

Director and staff participated in the Oklahoma Rehabilitation Council meeting on February 20.

Director and staff participated in the Employee Investment Program, The Infinite Game, presented by Craig Glasscock, Professional Development, DRS, on February 27.

Director met with Sharon Harrison, Harrison Consulting Group, March 2. Sharon is conducting interviews to extend her work regarding ecosystems workforce committees – composition and strategic direction, including disability environments. Sharon will interview other DRS staff and clients.

Process Improvement
Federal Reporting
RSA 911 PY2018 Q2 report has been submitted.

AWARE
The AWARE team has been testing AWARE document attachments and working with OMES on the plan for migrating documents from Knoweldgelake.
The team is conducting trainings with Units to improve the quality of data with Measurable Skills Gains, credential attainment, and Pre-Employment Transition Services.

Case Reviews
The Team is currently formulating a Data Validity audit to assist in identifying any issues with the data that is entered in the AWARE system by the field staff to ensure information reported to RSA per the 911 report is accurate.

Program Standards, Statistical Research
The research team:

- Are working with SBVI staff to revise the VIBE program evaluation tool,
- Working with the OSB and OSD Superintendents to revise the parent satisfaction surveys,
- Created a staff survey for the E-team to gather input on ways to celebrate the 100-year anniversary of VR,
- Participated in the annual disability compendium webinar and the Oklahoma Department of Education’s SSIP Stakeholder Input 2020 virtual meeting, and
- Are working with the AWARE team to develop a data validity system to ensure the accuracy of the RSA-911 reports.

The revised open and closed case client surveys are open and receiving responses. The VR and SBVI staff training needs assessment is also receiving responses.

Tiffany Davis is working with Jody Harlan and Dana Tallon from the Communications Unit on Census materials for distribution on the agency’s public-facing websites, social media accounts, and in local DRS offices.

Melinda Fruendt, Executive Director

BUDGET- The state equalization board met again this month and revised their certification of funds available down to $85.5 million less to appropriate for fiscal year 2021 than was appropriated for FY2020. The expectation at this point is that after using rainy day funds most state agencies are looking at a flat budget at best.

LEGISLATION –

We have just made it past the first committee deadline and everything is going as we would hope. SB 1140, our DDS IT security audit exemption bill, passed out of committee with no opposition. SB 1128, our deaf education teacher testing bill, has already passed off the Senate floor 46-0.

All the concerning bills did not make it past the deadline. Rep. Hilbert, author of HB 3080, which exempts counties from blind vendor priority, was able to facilitate conversation between Tulsa County and the BEP to resolve some concerns with an audit of vending machine equipment. SB 1693, the workforce agency consolidation bill, did not get a hearing. Meanwhile, HB 4006 and SB 1190, making contributions tax exempt to ABLE accounts (529 plans for persons with disabilities), both passed with ease.

Of the remaining HB 3891, the passing through to state Centers for Independent Living did not make deadline. SB 1474, that provides that any appointed member of a state board or commission be liable and subject to impeachment also did not make it out.

Finally, we do have two new bills added to the watch list, HB3094, by Rep. Mike Osborn and SB1879, by Sen. Greg Treat both require that all newly hired state employee positions be unclassified. Existing employees could stay in the classified service, but eventually it will make all employees unclassified.

We are now in floor action until March 12th. See you on the 10th.
HB1011 Paraphrase: HB1011, by Rep. Jacob Rosecrants, D-Norman, creates the Commission on Independence and Ability. It outlines the Commission’s purpose of monitoring and providing oversight of the Department of Human Services Aging Services Division and ADvantage Administration Unit to ensure that people with disabilities are receiving services in the most integrated setting, consistent with the Olmstead Decision as well as evaluating and expanding service options for the Consumer-Directed Personal Assistance Services and Supports program. It provides for commission membership. (Amended by House, Carryover Bill, Emergency Measure, Committee Substitute)
Effective Date: 07/01/2019  Emergency: Yes
Principal Authors: Rosecrants, Jacob (H)

HB3094 Paraphrase: HB3094, by Rep. Mike Osburn, R-Edmond, creates a new division within the Office of Management and Enterprise Services named the Human Capital Management Administration (HCMA). It requires the HCMA to receive and act on complaints arising from disciplinary actions by state employees, establish an application process for consideration of complaints, employ and maintain a statewide Alternative Dispute Resolution Program for state agencies and employees, and to hire administrative law judges as independent contractors to exercise provisions of the act. It requires that all new hire state employee positions and all unclassified state employee positions would be administered by the HCMA after Jan. 1, 2021. It allows current employees in classified positions to have option of retaining classified status but may change to the HCMA.

SB0154 Paraphrase: SB0154, by Sen. Frank Simpson, R-Ardmore and Rep. Tammy Townley, R-Ardmore, creates, until Dec. 31, 2020, the 17-member Language Equality and Acquisition for Deaf Kids (LEAD-K) Task Force to develop a resource for parents to monitor and track deaf or hard of hearing children's expressive and receptive language acquisition using American Sign Language, English or both, and developmental stages toward English literacy and developing a framework for assessing children who are deaf or hard of hearing to determine their competencies in language and literacy skills for the purpose of ensuring they have the opportunity to achieve kindergarten readiness in an equitable manner. The bill establishes membership and meeting requirements. The bill requires the task force to submit a report of its findings and recommendations by Dec. 31, 2020, to the Governor, Senate President Pro Tempore, House Speaker, chairs of the Senate and House education committees and chairs of the Senate and House health committees. SB0168 Paraphrase: SB0168, by Sen. Frank Simpson, R-Ardmore, creates the Blind Persons Literacy Rights and Education Act. The bill requires that in developing an individualized education program (IEP) for a student with a visual impairment, a provision shall be made for instruction in Braille and the use of Braille, unless determined otherwise. It clarifies that nothing therein requires the exclusive use of Braille if other special education services are appropriate to the student's educational needs and the provision of other appropriate services will not preclude Braille use or instruction. It outlines specifications for a student's IEP if it includes such a provision for instruction in Braille and use of Braille. It requires instruction in Braille reading and writing to be sufficient enough to enable each student with a visual impairment to communicate effectively and efficiently with the same level of proficiency expected of the student's peers of comparable ability and grade level. The bill requires any
teacher who is certified to teach students with a visual impairment to be required to demonstrate competency in reading and writing Braille, beginning July 1, 2020. It prohibits the State Board of Education from issuing or renewing a certificate to teach students who have a visual impairment unless the teacher candidate demonstrates that he or she is proficient in reading and writing Braille based upon standards adopted by the National Library Service for the Blind and Physically Handicapped. It requires that in the absence of a federal law or regulation establishing a national standard for electronic files to be used for production of accessible instructional materials, a file format standard must be prescribed by the State Department of Rehabilitation Services. It requires the agency to include a requirement that the electronic version is encoded in text suitable for conversion into Braille or synthesized speech and has been prepared using a markup language which maintains the structural integrity of the information and can be processed by Braille translation software. 612:10-1-3. Basic philosophy of rehabilitation programs [AMENDED]

(a) **Purpose.** The purpose of programs and services provided by the Division of Vocational Rehabilitation (DVR) and the Division of Visual Services for the Blind and Visually Impaired (DVS) (DSBVI) is to empower individuals with disabilities to maximize employment, economic self-sufficiency, independence, and inclusion and integration into society through comprehensive programs of vocational rehabilitation. Vocational rehabilitation programs are designed to assess, plan, develop and provide vocational rehabilitation services for individuals with disabilities, consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice, so that they may prepare for and engage in gainful employment (34 CFR 361.1 (b)).

(b) **Basic philosophy.** DVR and DVS DSBVI vocational rehabilitation programs are carried out in accordance with the principles stated in Section 100 (3) of the Rehabilitation Act including,

(1) Individuals with disabilities, including individuals with the most significant disabilities, are generally presumed to be capable of engaging in gainful employment and the provision of individualized vocational rehabilitation services can improve their ability to become gainfully employed.

(2) Individuals with disabilities must be provided the opportunities to obtain gainful employment in integrated settings.

(3) Individuals with disabilities must have the opportunity to be active and full partners in their vocational rehabilitation process.

(4) Qualified vocational rehabilitation counselors and other qualified and specialized rehabilitation personnel are necessary to facilitate the accomplishment of the employment outcomes and objectives of an individual.
612:10-1-3.1. Procedural exceptions [AMENDED]

Procedures set forth in this Chapter are not intended to reflect every situation that might confront DVR or DV$ DSBVI staff or to replace the staff's use of good judgment. In individual cases an exception from basic procedures may be requested. Authority to approve certain deviations from standard procedure rests with the division administrator. Authority to approve certain procedural exceptions has been delegated to program managers and field coordinators. Only those exceptions stated in rule may be applied to rules.
The purpose of pilot projects is to allow the Divisions of Vocational Rehabilitation and Visual Services for the Blind and Visually Impaired to design and evaluate service delivery innovations on a scale that will provide for an effective trial without being disruptive to the entire organization. Such pilot projects might include trials of innovative policies, standards, and/or procedures.

The Division Administrator can terminate the pilot project at any time prior to the specified project duration. The pilot project may not be extended beyond the originally approved time period.

(2) **Effect of DRS policy on pilot projects.** The Director of the Department of Rehabilitation Services may waive the applicability of specified departmental policies when necessary to implement a meaningful trial of the approved pilot project. The waiver will apply only to the pilot project specified by the Director, and will be effective only for the duration of the pilot project. The waiver will end immediately upon termination or completion of the model project.

All applicants, clients, or client representatives will be informed of the Department's policies on confidentiality of personal information. This information will only be used and released for purposes directly related to the administration of the Vocational Rehabilitation and Visual Services for the Blind and Visually Impaired programs. Information containing identifiable personal information will not be shared with advisory or other bodies who do not have official responsibility for the administration of these programs. Moreover, if served with a subpoena for the release of client information, staff should notify the general counsel immediately. In a legal proceeding, client information can only be released without the client's consent in response to a court order. A subpoena by itself is not sufficient to authorize disclosure of client information.

2. designation of the parties to whom the information is to be released;
3. the specific purpose for which the released information may be used;
4. designation of the agency or person authorized to disclose the information; and

1. Psychological, psychiatric, mental health and substance abuse treatment records and information from psychological, psychiatric, mental health and substance abuse treatment practitioners may only be obtained provided the requirements of Section 1-109 of Title 43A of the Oklahoma Statues are met. Under these circumstances, refer the individual, or the individual's representative, to the treating health professional.
(2) When a DRS professional staff person believes medical or other information not covered in (1) of this Subsection may be harmful to the individual, the information may not be released directly to the individual but must be provided to the individual through a third party chosen by the individual, which may include, among others, an advocate, a family member, or a qualified medical or mental health professional, unless a representative has been appointed by a court to represent the individual, in which case the information must be released to the court-appointed representative.

(3) Information obtained from another organization or agency may be released only through that agency, or under the conditions established by the outside agency, organization or providers. For example, information from the Veteran's Administration and Social Security Administration may not be released. Refer the individual requesting such information to the source from which the information was obtained.

(d) Request for information correction. An individual who believes that information in the individual's case record is inaccurate or misleading may request that the information be amended. Even if the information is not amended, the request for amendment must be documented in the case record.

(1) Upon receiving the informed written consent of the individual, or the individual's representative, information may be released to another agency or organization. Only that information that would be released to the involved individual, or the individual's representative will be released, and only to the extent that the other program or organization demonstrates that the information requested is necessary for its program.

(2) Personal information will be released if required by Federal law or regulations.

When requested by clients and applicants, CAP will assist them in their relationships with projects, programs, and Community Rehabilitation Programs providing services to them under the Act.

(1) The Oklahoma CAP has the authority to pursue legal, administrative and other appropriate remedies to ensure the protection of the rights of individuals with disabilities who are receiving treatment, services or rehabilitation under the Act within the State.

(2) Vocational Rehabilitation agencies are required by Federal statute to advise all clients and applicants of the existence of CAP, the services provided by the program, and how to contact the program. A brochure is provided to each individual at the time of application and development of the IPE.

(3) Counselors must assure clients and applicants have access to CAP without fear of reprisal and are not pressured against or otherwise discouraged from using CAP services.

(4) The CAP staff members will provide the following services:

(7) The CAP staff will make periodic field visits to facilitate CAP's availability to clients or applicants who cannot travel to Oklahoma City.

(d) Supervisory review. DVR and DVS DSBVI use a supervisory review process to resolve disagreements as close to the field service delivery level as possible. The objective of the supervisory review process is a timely resolution of disagreements, and is not to be used to delay or deny a fair hearing before a hearing officer or the services of an impartial mediator.

The supervisory review of a counselor determination starts the 60 day time period established under (f)(5) of this Section. The request for a fair hearing is submitted at this time in accordance with (f)(2) of this Section.

(1) The supervisory review is usually conducted by the program manager. If the program manager was involved in the disputed determination, the field coordinator conducts the administrative review. If the field coordinator was involved in the disputed determination, the division administrator conducts the administrative review.

(2) The decision that results from the administrative review will be stated in a letter to the individual, or to the individual's representative, with copies to the case record, the program manager, and the hearings coordinator. The letter will identify the individual, case number, caseload, and office location. The body of the letter will state the reason
for the administrative review and the decision resulting from that review. If the administrative review resolves the disagreement, the Withdrawal of Request for Hearing form must be submitted with the copy of the letter that is sent to the hearings coordinator.

(e) **Mediation.** Whenever a fair hearing is requested under this Section, mediation shall be offered as an option to resolve a disputed decision. DRS uses the voluntary mediation services of the Oklahoma Supreme Court. The supervisor will arrange for a mediator with the Early Settlement Center that is most convenient to the consumer upon receipt of a request for mediation. DRS will bear the cost of the mediation. The mediation session will be scheduled in a timely manner. An agreement reached by the parties to the dispute in the mediation will be set forth in writing. Discussions that occur during the mediation process will be confidential and may not be used as evidence in any subsequent due process hearing or civil proceeding. Should the dispute be resolved through mediation, a withdrawal of request for hearing must be submitted to the hearings coordinator. The parties to the mediation may be required to sign a confidentiality pledge prior to commencement of the process. Nothing in this Subsection shall be construed to preclude the parties from informally resolving the dispute. The Departmental representative attending the mediation must be the individual who has final decision making authority for the question in dispute. The mediation:

(1) must be entered into voluntarily by all parties;

(2) is not used to deny or delay the hearing or any other right; and

(3) is conducted by a qualified and impartial mediator.

(f) **Fair hearing process.** The fair hearing process will be conducted in accordance with (1) through (10) of this Subsection.

(1) **Services under IPE to continue.** No services being provided under the IPE shall be stopped, delayed, or reduced by the Department pending a final resolution of a requested hearing unless so requested by the individual or individual's authorized representative; or the service was obtained through misrepresentation, fraud, collusion, or criminal conduct on the part of the individual with disabilities.

(2) **Request for a fair hearing.** The individual has 30 calendar days following the date on the notice of the adverse decision to request a fair hearing.

DVR and DVS DSBVI staff will assist the individual in completing this form and with preparation of evidence from the case record in conformance with 612:10-1-5, if so requested.

(B) DVR and DVS DSBVI staff will immediately notify their supervisor of the request for a fair hearing so that the administrative review can be started by the appropriate staff person. The completed Hearing Summary form, a copy of the notice of the adverse decision, and all supporting materials to be used in the hearing must be sent to the hearings coordinator as soon as possible. If a request for a fair hearing is submitted to the local office, staff will immediately forward it with the other materials.

(C) Prior to the actual fair hearing, the hearings coordinator will provide copies of materials the agency will use in the fair hearing to the individual and/or the individual's representative in conformance with 612:10-1-5.
(3) **Withdrawal of request for a fair hearing.** The individual, or the individual's representative, may submit a withdrawal of request for hearing any time following the submission of a request for a fair hearing up to the time the hearing is actually held. If the issue is resolved prior to the fair hearing, the individual, or the individual's representative, must submit a Withdrawal of Request for Hearing to end the fair hearing process.

(4) **Selection of impartial hearing officer.** The hearings coordinator will select an impartial hearing officer from a list of qualified impartial hearing officers maintained and identified by the State unit. Once selected, the impartial hearing officer will assume responsibility for arranging and conducting the fair hearing with the assistance of agency staff as necessary. The hearings coordinator will be apprised of events in the hearing process, and will be provided copies of all correspondence.

   (A) Selections will be made randomly; or by agreement between the director of the designated State unit and the applicant or eligible individual or, as appropriate, the individual's representative; from the list of available impartial hearing officers. The hearings coordinator will forward all relevant materials to the assigned impartial hearing officer.

   (B) The impartial hearing officer will send written notice of the fair hearing to all parties involved. The written notice of the fair hearing will include the name, address, and a brief vita of the impartial hearing officer.

   (C) The individual may request a different impartial hearing officer based upon presented evidence that a conflict of interest exists consistent with Section 7 (16) of the Rehabilitation Act and 34 CFR 361.5(b)(25). A request for a different impartial hearing officer must be made within five days of receiving the fair hearing notice.

(5) **Scheduling of the fair hearing.** The fair hearing must be held within 60 calendar days from the date the request for a fair hearing is received, unless the issue is resolved prior to the 60th day or the parties agree to a specific extension of time. The administrative review must be conducted and concluded within the same 60 days. Delays or continuances will not be given for the purpose of extending the provision of services. Any agreement to an extension of time must be formalized in writing.

(6) **Consumer's participation in hearing.** At a fair hearing, the individual, or the individual's representative, is afforded the opportunity to:

   (A) present additional evidence, information, and witnesses to the impartial hearing officer;

(D) evidence presented by the grievant;
(E) rebuttal by either or both sides;
(F) closing statements by the grievant;
(G) closing statements by the agency; and
(H) rebuttal by grievant.

(9) **Decision.** The hearing officer makes a decision based on the provisions of the approved State Plan, the Act, Federal vocational rehabilitation regulations, and State regulations and policies that are consistent with Federal requirements and on whether or not the counselor properly applied rules. The hearing officer does not have the authority to rule upon the legality of DRS rules that are consistent with Federal requirements. A decision made after a fair hearing shall be final, unless a party to the fair hearing requests a review under Paragraph (10) of this Subsection. The hearing officer provides the individual, or the individual's representative, and the hearings coordinator a full written report of the findings and grounds for the decision within 30 days of the completion of the hearing. The hearings coordinator will immediately forward the decision to the Director of DRS. The impartial hearing officer may make one of several decisions, which include, but are not limited to:

(D) accepting a settlement of the issues agreed to by the grievant and the agency which must include a written withdrawal of request for a hearing.

(10) **Review of impartial hearing officer's decision.** Any party involved in a fair hearing may request an impartial review of the impartial hearing officer's decision within 20 calendar days of that decision. This review will be conducted by the Governor or the Governor's designee to whom DRS is assigned. The review will be conducted in accordance with the standards in (A) through (E) of this paragraph:

(A) The Governor or the Governor's designee will not delegate responsibility for this review to any officer or employee of DRS.
(B) The Governor or the Governor's designee will provide an opportunity for the submission of additional evidence and information relevant to a final decision concerning the matter under review.
(C) The Governor or the Governor’s designee will make a final decision within 30 days of the request for administrative review. The decision will be provided to all parties, and/or to the parties' authorized representatives, in writing. The written decision will include a full report of the findings, and the grounds for the decision.

(D) The Governor or the Governor’s designee cannot overturn or modify a decision, or part of a decision, made by an impartial hearing officer that supports the position of the individual unless the Governor or the Governor’s designee concludes, based upon clear and convincing evidence, that the decision of the hearing officer is clearly erroneous on the basis of being contrary to the approved State plan, the Act, Federal vocational rehabilitation regulations, or State regulations and policies that are consistent with Federal requirements. The Governor or the Governor's designee will apply the standards presented in (i) through (iii) of this Subparagraph when conducting the review of the hearing officer's decision.

(i) The hearing officer's decision shall not be arbitrary, capricious, an abuse of discretion, or otherwise unreasonable.

(ii) The hearing officer's decision shall be supported by substantial findings of fact.

(iii) In reaching the initial decision, the impartial hearing officer shall correctly apply Federal and State law, regulation, agency policy, and the approved State Plan as they pertain to the specific issue in question.

(E) A decision made under this Paragraph shall be final unless a party involved in the hearing brings a civil action.

(g) Civil proceedings. Any party aggrieved by a final decision of an impartial hearing officer, or by the Governor or the Governor's designee, may bring a civil action for review of the decision. The action may be brought in any State court of competent jurisdiction or in a district court of the United States of competent jurisdiction without regard to the amount in controversy. If a party brings a civil action, the final decision of the impartial hearing officer, or of the Governor or the Governor’s designee, shall be implemented pending review by the court. In any action brought under this Subsection, the court:

(1) shall receive the records relating to the hearing, and the records relating to any review conducted under (f)(10), if applicable;

(2) shall hear additional evidence at the request of a party to the action; and

(3) basing the decision of the court on the preponderance of the evidence, shall grant such relief as the court determines to be appropriate. [29 USC 722]

(h) Standards for impartial hearing officers. In addition to qualifications required in a contract with the Department, an impartial hearing officer must meet the standards set forth in (1) through (6) of this Subsection:

(1) cannot be an employee of a public agency (other than an administrative law judge, hearing examiner, or employee of an institution of higher learning);

(2) cannot be a member of the Oklahoma Rehabilitation Council;

(3) has not been involved previously in the vocational rehabilitation of the applicant or eligible individual;
(4) must have knowledge of the delivery of vocational rehabilitation services, the State plan required under Section 101 of the Act, and the Federal and State rules governing the provision of such services and training with respect to the performance of official duties;

(5) must have no personal, professional or financial interest that would be in conflict with the objectivity of the impartial hearing officer; and

(6) must have successfully completed impartial hearing officer training presented by DRS.

(i) **Standards for impartial mediators.** In addition to qualifications required in a contract with the Department, an impartial mediator:

1. will be trained and certified or licensed in effective mediation techniques;

2. will not be an employee of a public agency (other than an Administrative Law Judge, hearing examiner, employee of a State Office of Mediators, or employee of an institution of higher education);

3. will not be a member of the Oklahoma Rehabilitation Council;

4. must be knowledgeable in laws and regulations relating to the provision of VR services;

5. has not been involved previously in the vocational rehabilitation of the applicant or eligible individual; and

6. must have no personal, professional or financial interest that would be in conflict with the impartiality of the mediator.
612:10-1-7. Purchase of services and goods for individuals with disabilities

[AMENDED]

(a) All Department authorizations are made in compliance with the state purchasing policy under legal authority of the Director or by an employee to whom the Director has delegated such authority. Services, other than diagnosis and pre-employment transition services for students with disabilities regardless of whether the student has applied or been determined eligible for vocational rehabilitation services, must be in an approved Individualized Plan for Employment prior to authorization. All authorizations are to be issued prior to or simultaneously with the provision of the services. Verbal authorizations may be made when needed to ensure effective delivery of services. Verbal authorization must be followed immediately by the actual authorization. Separate authorizations for each fiscal year are required when a planned service extends beyond a single fiscal year. Rehabilitation professionals may not authorize fees for services in excess of those established by the Department unless approved by the Division Administrator. A prior written purchasing agreement is required before authorization can be made to any medical vendor or post-secondary school. Other nonmedical vendors will not require a prior written purchasing agreement unless stated otherwise in the DRS policy manual section(s) for that service. When a vendor has a prior written purchasing agreement with the Department, and required approvals have been obtained, authorization may be issued for consumer services directly to that vendor. All other consumer services will be purchased pursuant to the rules in (g) and (h) of this Section. However, a requisition may be submitted to the DRS Purchasing Section if, in the judgment of the responsible rehabilitation professional, the best interests of the consumer and/or the agency would be served by having the Purchasing Section handle the procurement. In either case, once items have been received and checked against the authorization, the appropriate DVR or DVS DSBVI staff, in accordance with (g) and (h) of this Section, approves the claim, then forwards it to the DRS Financial Services Division. When a vendor does not abide by the authorization or written purchasing agreement or bills and accepts fees from the client in addition to those agreed upon, the rehabilitation professional will bring this to the immediate attention of the supervisor for action by the administration. The vendor will not be used for further rehabilitation services until agreement to discontinue the objectionable practice is reached.

(b) Since the Department is a state-federal agency, it does not pay sales, excise, or transportation taxes.

(c) All claims for medical and/or nonmedical client services must be filed on claim forms approved by the Department. When the provision of an authorization is fulfilled, payment for the authorized client services constitutes payment in full. The client will not have any financial liability other than the amount required of clients who must participate in the cost of the service provided. The individual is liable for services he/she arranged which were not planned and initiated under the auspices of DRS. When DVR and DVS DSBVI funds are used to supplement third party medical resources, participation cannot exceed the difference between the third-party payment and the Department's established schedule.

(d) The client must transfer, assign, or authorize payments to the Department of any and all claims against Health Insurance or Liability Insurance companies or other third parties, to the full extent of all payments for medical services made by the Department.

(e) The Department retains right and title to any tools, equipment, durable medical equipment, or other goods costing $500 or more purchased with DVR and DVS DSBVI funds, until and unless such goods are released to the client. Upon delivery of any such goods to the client, a Receipt for Equipment and Title Agreement must be completed and approved.
Completion of Program:

Any tools, equipment or durable medical goods purchased for training or occupational purposes remain with the client after completion of the program of services if they can be used in the client’s chosen vocation. If the client fails to complete the program of service, the counselor will make effort to reclaim the goods to transfer to another client.

Disposition at closure:

Case recording must reflect the disposition at the time of closure of tools, equipment, and goods provided the client. All occupational tools, equipment, and durable medical goods remain the property of the agency until released. If the client is not using the items, the counselor will pick them up if an economical savings to the agency will result, and if the transfer will not endanger the health or safety of the client.

Title Release:

Title on any tools, equipment or durable medical equipment purchased with DRS funds for training or occupational purposes will not be released to the client until the counselor has determined the client is using the items as planned.

(f) When the rehabilitation professional determines an authorization or portion of an authorization will not be utilized, procedures to cancel the remaining services will be completed. Before the case is closed, all unliquidated authorizations must be canceled or accounted for to determine if a claim will be made against any outstanding authorization.

(g) Purchasing consumer goods or services, other than direct client payments, when there is no prior written purchasing agreement is basically a three step process. These steps include specifying the requirements for the goods or services, authorizing for the purchase, and receiving delivery of the goods or services. For audit purposes, no one person can perform more than one of these steps. A different person is required for:

(1) identifying the requirement for the purchase;

(2) placing the order; and

(3) accepting the material or service.

(h) When a prior written purchasing agreement for consumer goods or services, other than direct client payments, is not required, and the service or package of services to be obtained will cost the amount of the DCAM authority order limit or less, the rehabilitation professional and client will jointly choose an appropriate vendor. The rehabilitation professional will then authorize for the planned services to the chosen vendor. When a prior written purchasing agreement for consumer services, other than direct client payments, is not required, and the service or package of services will cost more than the DCAM authority order limit, the rehabilitation professional will follow rules in (1) through (7) of this Subsection.

(1) The rehabilitation professional will obtain specialist recommendations for purchase requirements and approvals in accordance with agency policy.

(2) The participation of the client, or the client's authorized representative, will be obtained in deciding upon at least three vendors to be contacted by the rehabilitation professional to obtain bids for the goods or services. The rehabilitation professional will review available vendor information with the client, or client's authorized representative, to jointly determine which vendor(s) can best meet the needs of the client in terms of product and service function, quality, and vendor accessibility.

(3) At least three vendors offering the goods or services will be contacted to obtain bids. To expedite planning and service delivery, bids may be obtained verbally. Upon
request, contacted vendors will be afforded at least 24 hours in which to prepare and submit the verbal bid. The rehabilitation professional will ensure that all bids are submitted in writing for the same or comparable items, and will document the bids received by using the Vendor Bid Documentation Form.

(4) The rehabilitation professional will issue the appropriate authorization and claim to the vendor submitting the lowest and best bid. If the rehabilitation professional managing the case is also the recognized specialist who identified the purchase requirements, then the supervisor will issue the appropriate authorization. Authorization may be issued to a vendor not submitting the lowest bid only with strong documentation that the selected vendor can best meet the needs of the client. When the bid is in excess of $5,000.00 the successful bidder will sign a non-collusion statement (to be sent with the claim), which will be maintained in the case service record.

(5) In the case of a vehicle modification or housing modification, upon completion of the authorized services, the counselor will contact the AT Specialist to schedule inspection of the work in accordance with 612:10-7-220 and 612:10-11-38. The AT Specialist will complete the "Assistive Technology Inspection Report" verifying the modification conforms to acceptable standards and the work is satisfactory.

(6) Upon delivery of the goods or services in accordance with the IPE and authorization, a rehabilitation staff person other than the specialist who specified the purchase requirements and the rehabilitation professional who authorized the purchase will accept delivery, verify that goods received match the vendor invoice, sign the appropriate claim form, sign and attach the invoice and forward them to the DRS Financial Services Division.

(7) Upon delivery of any goods costing $500 or more to the client, a Receipt for Equipment and Title Agreement must be completed and approved.

(8) Itemized documentation will be in the case record on all orders costing less than $500 and the client will acknowledge their receipt. (For example, signing and dating the packaging slip, vendor's invoice, or typed list of goods.)

(9) Returned or repossessed items must be documented on for "Receipt for Equipment and Title Agreement" and the final disposition noted in Case Narrative entry.

(i) Program Managers will review case records when submitted for approvals to ensure that purchases are being awarded in a manner that ensures competition and client participation within the scope of DRS and applicable fiscal rules. At least once each fiscal year a random selection of case records will be reviewed by the DRS Central/Departmental Services Unit to monitor compliance with DRS and applicable fiscal rules. If a Program Manager has reason to believe that a rehabilitation professional is not making a good faith effort to award purchases in a competitive manner and in accordance with agency policy, a fiscal audit of the entire caseload will be requested to determine the appropriate action to take.

(j) Pursuant to 74 O.S. 85.44A, any goods or services required under a court order shall be purchased in accordance with DRS fiscal rules.
612:10-3-2. Consideration of comparable services and benefits [AMENDED]

(a) Prior to providing any VR service to an eligible individual, except those services specified in Paragraph (1), the VR counselor will determine whether comparable services and benefits are available under any other program unless any of the conditions in Paragraph (2) apply to the individual.

(1) The VR services listed in (A) through (F) are to be provided without first determining the availability of comparable services and benefits. However, comparable services and benefits may be used for these VR services if the comparable services and benefits are readily available at the time the VR services are needed. VR services exempt from a required search for comparable services and benefits are:

(A) information and referral services to eligible individuals not in an open priority group under the order of selection;

(B) assessment for determining eligibility and vocational rehabilitation needs by qualified personnel, including, if appropriate, an assessment by personnel skilled in rehabilitation technology;

(C) counseling and guidance, including information and support services to assist an individual in exercising informed choice;

(D) referral and other services to secure needed services from other agencies through cooperative agreements;

(E) job-related services, including job search and placement assistance, job retention services, follow-up services, and follow-along services; and

(F) rehabilitation technology, including telecommunications, sensory, and other technological aids and devices.

(2) Determining whether comparable benefits and services are available will not be required prior to providing any VR services if that determination would interrupt or delay:

(A) the progress of the individual toward achieving the employment outcome identified in the IPE;

(B) an immediate job placement; or

(C) the provision of such services to any individual at extreme medical risk.

(b) Counselors will advise clients of available benefits, help in completing the application for such benefits when needed, and refer clients to the appropriate contact person. Each client is required to apply for such benefits. DVR and DVS DSBVI will not participate in the cost of services for any client who fails to apply for and accept available comparable benefits.

(c) Whether or not the client must participate in the cost of VR services has absolutely no effect upon the required search for, or use of, available comparable benefits. Available comparable benefits cannot be used in place of client resources when the client is required to participate in the cost of VR services.

(d) Awards and scholarships based upon merit will not be counted as comparable benefits.
A student loan is not a comparable benefit. Failure to apply for a student loan which must be repaid will not be cause to withhold participation by DVR or DVS DSBVI. Clients who have defaulted on a student loan will not be assisted with post-secondary training until the client has cleared the default or has made arrangement with the lender on the terms of payment. Documentation of the arrangement made must be in the case record before post-secondary training services are provided when it is known a client has defaulted on a loan. The counselor will inform such clients of organizations which can help resolve debt problems, such as credit counseling services and legal aid.

Clients are expected to provide the counselor a copy of the award letter(s) or other written notice of comparable benefits received from other sources, and it is expected the comparable services and benefits available to the client will be used to defray all or part of the cost of the individual's IPE.

The client's IPE will be reviewed and amended by the client and VR counselor whenever comparable services or benefits that were not accounted for in the original plan become available to the client.

Cooperative agreements between DRS and other service providers may affect how comparable services and benefits available from such service providers will be applied in an IPE. Cooperative agreements entered into by DRS with other service providers will include:

1. provisions for determining and stating the financial responsibility of each agency in providing services;
2. conditions, terms, and procedures for DRS to be reimbursed by other agencies for providing covered services;
3. procedures for resolving interagency disputes under the agreement; and
4. coordination of agency procedures for timely VR services delivery.
612:10-3-3. Client participation in services cost and financial status determination

[AMENDED]

(a) DVR and DVS DSBVI require the client to participate in the cost of some vocational rehabilitation services if the client and/or client’s family income exceeds the established basic living requirement for the applicable family size. Any client who has been determined eligible for Social Security benefits under Title II or XVI of the Social Security Act is exempt from client participation in service costs.

(b) Before an individual can be provided services other than those listed in DRS policy, the counselor must evaluate the client's financial situation to determine if the client must participate in the cost of services, and if so, the amount of such participation. Any client whose available family income exceeds the applicable basic living requirements is required to apply the monthly surplus to the cost of services during each 30 day period services are provided. DVR and DVS DSBVI funds will not be used to purchase services based on client's financial status when there is any refusal on client's behalf to participate in the cost of services. However, the client can be provided services not based on financial status. Any client who does not have a surplus is not required to participate in the cost of services. Financial status does not exempt the client from required use of comparable benefits. If a payment is required of the client, it will be made to the vendor.

(c) The counselor will re-evaluate the client’s financial situation at least annually and any time there is a change in the financial situation of the client or family. The amount of client participation in cost is based upon the most recent determination of client's financial status at the time the IPE or amendment is written, and is stated in the IPE or amendment.

(d) The client's financial status must be verified when an IPE includes services which require client participation in cost of services. Information used to verify the client's financial status includes such documents as income tax returns, bank statements, pay stubs, canceled checks, payment receipts, and/or payroll documents. It is the client's responsibility to provide the documents needed for verification of financial status information for the family. If the client refuses to provide the requested verification, DVR and DVS DSBVI resources will not be used to defray the cost of services which require client participation in cost of services.
612:10-3-4. Services exempt from client participation in service costs [AMENDED]

(a) DVR and DVS DSBVI clients who have income and assets above the basic living requirements will be required to apply surplus resources to the cost of rehabilitation services except for the following services which do not require a determination of financial status:

(1) services provided to assess eligibility and rehabilitation needs (services which would require the individual's participation in cost under an IPE will also require the individual's participation in cost during an evaluation of the individual's ability to benefit from VR services);

(2) counseling, guidance, referral, and other services provided directly by DVR and DVS DSBVI staff;

(3) on-the-job training, work experiences, internships and apprenticeships;

(4) personal or work-adjustment training;

(5) reader services;

(6) interpreter services;

(7) personal assistance services;

(8) job-related services including job search and placement, job retention services, follow-up services and follow-along services;

(9) compensatory training;

(10) job coaching services (i.e., supported employment, employment and retention, transitional employment); or

(11) any auxiliary aid or service that an individual with a disability require under Section 504 of the Rehabilitation Act or the Americans with Disabilities Act, or regulations implementing those laws, in order for the individual to participate in the VR program; and

(12) library services.

(b) Recipients of Social Security benefits under Titles II (federal old age, survivors, and disability insurance benefits) or XVI (SSI) of the Social Security Act do not have to participate financially in the cost of their rehabilitation program.

612:10-7-2. Field staff responsibilities [AMENDED]

(a) The counselor is responsible for contacting each referral within 30 days of receipt of the referral information. The counselor is responsible for completing a contact by telephone or in person. The counselor is responsible for providing interpreter services to applicants who are deaf or non-English speaking.

(b) The rehabilitation counselor is responsible for the determination of an individual's eligibility to receive services from DVR or DVS DBVI. In cases where the counselor has difficulty in making an eligibility determination, the counselor will consult with the supervisor. For further clarification, the case will be reviewed by the field coordinator for a decision. Individuals who are legally blind are to be referred to the appropriate rehabilitation teacher for determination of eligibility for the rehabilitation teaching program.

(c) The counselor's primary vocational rehabilitation service is counseling and guidance with job placement. Additional services must be justified as necessary to compensate for, correct or circumvent an impediment to employment. Every IPE must include a plan of counseling and guidance services. Regular documentation of counseling sessions will be included in every DVR and DVS DBVI case.

(d) The rehabilitation counselor is to ensure that the client is a full participant in the decisions that are made concerning his or her vocational rehabilitation. This responsibility is carried out by providing the individual with as much relevant information as is available so that the individual, and/or the individual's authorized representative, can exercise informed choice consistent with the Department's policies. The minimum information concerning service choice to be supplied includes:

   (1) service cost;
   (2) available service providers;
   (3) service accessibility;
   (4) expected duration of services;
   (5) consumer satisfaction with the services in question, to the extent that such information is available;
   (6) qualifications of potential service providers;
   (7) the types of services offered by the potential service providers;
   (8) the degree to which services are provided in integrated settings; and
   (9) outcomes achieved by individuals working with the service provider, to the extent such information is available.

(e) The individual will be notified in writing of any adverse determination made by professional staff concerning that individual's case. This notification will be made in a timely manner, and in a manner that supports the individual's right to due process.

(f) The counselor will complete a financial status determination form prior to the provision of any service (other than exempt services listed in 612:10-3-4) to determine if the client will be required to participate in the cost of services.
(g) The counselor will inform each individual of his or her rights and responsibilities as an applicant or client of DVR and DVS DSBVI. Cross reference 612:10-7-3

(h) The Department of Rehabilitation Services (DRS) has an obligation under state and federal law to provide services in a fair and impartial manner. State Ethics Commission Rules state that the proper operation of state government requires that the state employee be independent and impartial; that state employees not use state office to obtain private benefits; that a state employee must avoid action which creates the appearance of using state office to obtain a private or inappropriate benefit; and that state employees exercise their powers without prejudice or favoritism.
612:10-7-2.3.1 Work Experience. [NEW]

(a) When Work Experience (WE) will best suit the client's needs, this type of training can be considered. In order for the client to gain work experience and obtain employment, WE can be provided in conjunction with any other DRS Service. The nature of the work training experience may (or may not) match the consumer's employment goal on the IPE. This service does not require client participation in cost of services.

(b) In selecting work training sites, the counselor must assure the items in (1) – (5) of this Subsection are met:

(1) The business or individual must be willing to train and provide experience to DRS clients for specific duties, skills and occupations.

(2) DRS will provide proper equipment and other accommodations as needed.

(3) The individual who actually does the training must be the employer or an employee of the business and have the knowledge, skill, and ability to train the client.

(4) Time must be devoted daily to the training of the client.

(5) It is expected the client will be employable after a reasonable period of training.

(c) The length of time for Work Experience needed for training will vary with the complexity of the job being learned. However, Work Experience cannot exceed six (6) months.

(d) Individuals and businesses which provide Work Experience are expected to compensate WE participants according to applicable minimum wage and hour regulations under the Fair Labor Standards Act. The employer must pay the client at least the applicable minimum wage.

(e) Work Experience payments are reimbursement for training by the employer. Reimbursement is paid to the employer who pays the client just like his or her own employees. It is not permissible for the employer to endorse the reimbursement check and give it to the client in lieu of wages.

(f) Reimbursement for Work Experience is paid on a monthly basis.
To make the rehabilitation effort a success, the individual and agency's staff must work together to reach chosen goals. This shared responsibility requires that the client or applicant for services accept the basic responsibilities in (1) through (12) of this Subsection. Other specific client responsibilities are stated in relevant manual sections. It is the counselor's responsibility to fully and appropriately inform the client of client responsibilities.

(1) Provide information and be available to complete the assessment process to find out if you are eligible for services.

(2) Be on time and keep appointments with DVR/DVS DVR/DSBVI staff, doctors and others. Call in advance or as soon as possible, if you cannot come to an appointment.

(3) Follow the advice of doctors and other medical professionals to include compliance with all prescribed medications.

(4) Participate with your DVR/DVS DVR/DSBVI counselor in developing the Individualized Plan for Employment, (IPE) including participating in assessments needed to determine your needs and strengths.

(5) Provide enrollment documents to home/supervisor counselor before the college or university's designated "Drop and Add" deadline so an authorization can be issued, if your IPE includes educational and training services.

(6) Attend education or training classes on a regular basis and make at least passing grades, if your IPE includes these services.

(7) Review your IPE with your counselor at least once a year and participate in making revisions to the plan when needed.

(8) Maintain satisfactory progress toward completing the IPE.

(9) Abstain from abuse of drugs and/or alcohol. Individuals who abuse drugs and/or alcohol while receiving services will be referred to the Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS) and/or other appropriate agencies for purposes of seeking treatment. All case services will be suspended. If the client refuses or fails to cooperate with seeking treatment, or is not available to pursue a DRS program, this will be considered as reasonable cause for case closure.

(10) Keep the appropriate professional informed of changes in the individual's address, financial status, or other program-related changes.

(11) Apply for and make appropriate use of any comparable benefits and services for which the client is eligible to defray in whole or in part the cost of services in the individual's IPE and provide verification of financial aid award status to counselor.

(12) Work with the counselor to obtain or keep suitable gainful employment or appropriate independent living outcomes as services are being completed.
612:10-7-21.1 Processing incoming referrals [AMENDED]

(a) Processing incoming referrals. All referrals to DVR and DVS DSBVI will be contacted by the VR counselor and appropriate action taken within 30 days, after receipt of the referral information. The counselor is responsible for completing a contact by telephone or in person. The counselor is responsible for providing interpreter services to referrals who are deaf or non-English speaking. In situations where the individual cannot be personally contacted, correspondence will be mailed to the individual for informational purposes.

(b) Referrals to rehabilitation teachers. All individuals who are legally blind, whether being served by a DVR counselor or a DVS DSBVI counselor, will be referred to a rehabilitation teacher. Rehabilitation teachers may also receive counselor referrals and provide services for individuals who are not legally blind but have functional limitations due to vision loss and have potential to benefit from rehabilitation teaching services.
612:10-7-21.2. Information and referral system [AMENDED]

(a) DVR and DVS DSBVI staff will ensure that individuals with disabilities, including eligible
individuals who do not meet order of selection criteria when the agency is operating under
an order of selection, are provided accurate vocational rehabilitation information and
guidance, using appropriate modes of communication. This information and guidance will be
used to assist the individual in preparing for, securing, retaining, or regaining employment.

(b) Staff will ensure that individuals with disabilities are appropriately referred to Federal
and State programs, including other components of the workforce investment system. An
appropriate referral shall:

(1) be to the Federal or State program(s) best suited to address the specific
employment needs of the individual; and

(2) include, for each involved program, provision to the individual of:

(A) a notice of the referral from DVR or DVS DSBVI to the agency responsible for
the program;

(B) information identifying a specific point of contact within the agency responsible
for the program; and

(C) information and advice regarding the most suitable services to assist the
individual.
612:10-7-24.1. Basic eligibility requirements for vocational rehabilitation services

(a) An individual is eligible for vocational rehabilitation services under the Rehabilitation Act through the State Department of Rehabilitation Services if the individual:

(1) has a physical or mental impairment which for such individual constitutes or results in a substantial impediment to employment;

(2) is determined by a qualified vocational rehabilitation counselor to require vocational rehabilitation services to prepare for, secure, retain, advance in, or regain employment; and

(3) can benefit in terms of an employment outcome from vocational rehabilitation services.

(b) The agency presumes that an applicant with a physical or mental impairment that constitutes or results in a substantial impediment to employment can benefit from vocational rehabilitation services in terms of an employment outcome, unless the agency demonstrates, based on clear and convincing evidence, that the individual is incapable of benefiting from rehabilitation services due to the severity of the individual's disability.

(c) An individual who has a disability or is blind as determined pursuant to Titles II (federal old age, survivors, and disability insurance benefits) or XVI (SSI) shall be:

(1) considered to have a significant disability under the order of selection; and

(2) presumed to be eligible for vocational rehabilitation services, (provided that the individual intends to achieve an employment outcome consistent with the unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice of the individual) unless clear and convincing evidence demonstrates that the individual is incapable of benefiting in terms of an employment outcome from vocational rehabilitation services due to the severity of the individual's disability.

(d) Eligibility requirements shall be applied without regard to:

(1) duration of residence in the state,

(2) type of disability,

(3) age, except that in serving eligible individuals below working age, the client must be expected to reach working age by the time the IPE is completed, and DRS will not provide services that are the responsibility of the public school system,

(4) gender, race, color or national origin,

(5) type of expected employment outcome,

(6) source of referral, or

(7) the particular service needs or anticipated cost of services required by an applicant or applicant's family.

(e) Disabled veterans. Disabled veterans are eligible for vocational rehabilitation services on the same basis as other individuals with disabilities subject to the following restrictions:
(1) Disabled veterans are not provided services which can be secured from the Veterans Administration (VA), unless use of VA services will cause a substantial delay of services.

(2) Veterans receiving additional benefits under the G. I. Bill or the War Orphan Act may be provided services if such services do not duplicate those being received from the VA.

(f) **Applicants who are employed.** Employed persons who meet basic eligibility requirements may be provided vocational rehabilitation services to advance in or retain employment, or when the employment is not consistent with the individual’s strengths, resources, priorities, concerns, abilities, interests and capabilities.

(g) **Citizenship.** Participation in the VR program is available to citizens and nationals of the United States, lawfully admitted permanent resident aliens, refugees, asylees and parolees, and other immigrants authorized to work in the United States.

(h) **Criteria.** Some conditions have unique criteria that must be considered when determining eligibility.

(1) **Alcoholism/Drugs.** Individuals may be eligible for vocational rehabilitation services based on a substance abuse diagnosis that may be made by a qualified professional. Clients must be willing to undergo random alcohol/drug screening. DRS does not pay for detoxification or replacement drug treatment. Documentation from qualified Drug and Alcohol treatment professionals indicating that the client is presently substance-free, maintaining sobriety, and actively participating in a treatment or maintenance program if recommended by the treating professional must be filed in the case record upon IPE development.

(2) **Allergies/Asthma.** Allergies/asthmatic conditions that require continuous or intermittent medical intervention and result in a substantial impediment to employment will be considered eligible for services.

(3) **Deafness and Hearing Loss.** The rehabilitation professional will base eligibility determination upon one of the measurement methods listed below, as performed by a qualified audiologist or other qualified professional as determined by the Department. The case record must document the method chosen provides the most accurate evaluation of functional hearing level for the individual.

(A) **Eligibility criteria.** Eligibility criteria for each method of measurement are listed in (i) through (iv) of this Subsection. An individual will also be considered to have a qualifying disability when documentation indicates the hearing loss is progressive and the progression is substantial enough to result in an impediment to employment.

(i) **Average hearing loss.** Average hearing loss, which is determined by computing average of the pure tone thresholds for each ear at 1000Hz, 2000Hz, 3000Hz and 4000Hz. An individual is considered to have a qualifying disability based upon average hearing loss when:

(I) The hearing loss in one ear is profound (91 dB or greater) and the hearing loss in the better ear is at least 15 dB; or

(II) The hearing loss in the better ear is 30 dB or greater.
(ii) **Speech recognition threshold (SRT).** An individual is considered to have a qualifying disability when:

(I) the speech reception threshold in one ear is 91 dB or greater and is at least 15 dB in the better ear; or

(II) the speech reception threshold in the better ear is 30 dB or greater.

(iii) **Speech discrimination or word recognition score.** An individual is considered to have a qualifying disability when the speech discrimination or word recognition score is 70% or less.

(iv) **Articulation index.** An individual is considered to have a qualifying disability when the articulation index is 70% or less.

(B) **Severity of Hearing Loss.** All individuals who qualify as having a severe hearing loss will be referred to a Rehabilitation Counselor for the Deaf and Hard of Hearing (RCD). Relevant information provided will include copies of the initial interview narrative recording, medical information, eligibility data entry form, Individualized Plan for Employment, pertinent copies of case narratives and DRS application form. On receipt of a referral, the RCD will contact the client and make a determination of potential for Deaf and Hard of Hearing services. The referring counselor will be informed in writing of the RCD’s findings.

(i) **Severe Hearing Loss.** Average hearing loss, as calculated above, is considered severe when:

(I) The hearing loss in one ear is profound (91 dB or greater) and the hearing loss in the better ear is at least 31 dB; or

(II) The hearing loss in each ear is 55 dB or greater.

(ii) **Severe Speech Recognition Threshold (SRT).** An individual is considered to have severe disability when;

(I) The SRT in one ear is 91 dB or greater and the SRT in the better ear is at least 31 dB; or

(II) The SRT in each ear is 55 dB or greater.

(iii) **Severe Speech Discrimination or word recognition score.** An individual is considered to have a severe disability when the speech discrimination or word recognition score is 59% or less.

(4) **Diabetes:** The individual must require prescribed medication to control the condition. Those persons whose diabetes is controlled by diet and exercise alone or whose condition does not result in a substantial impediment to employment will not be considered eligible. Eligible clients will be required to undergo a visual exam by a licensed ophthalmologist at least once a year. Diabetes management training will be incorporated into the IPE unless the client shows that he/she has previously completed diabetes management training. When recommended by a physician, diabetes management training will be incorporated into the IPE regardless of past diabetes education received by the individual.
(5) **Facial and Disfigurement Conditions.** When these conditions result in an impediment to employment an individual may be eligible for VR services.

(6) **Learning Disabilities.** An individual may be identified as learning disabled:

Learning disabilities is a general term that refers to a group of disorders manifested by significant difficulties in the attainment and use of listening, speaking, reading, writing, reasoning, or mathematical abilities. Learning disabilities are identified when there are difficulties learning and using academic skills, as indicated by at least one of the following occurring even with interventions: Inaccurate or slow reading, difficulty understanding the meaning of what is read, difficulties with spelling, difficulties with written expression, difficulties mastering numbers sense, facts or calculation, and difficulties with mathematical reasoning. Also, academic skills are significantly below those expected for the student’s chronological age and causes issues with academic and occupational performance. Academic areas include, impairment in reading, impairment in written expression, and impairment in mathematics.

(A) When there is a marked discrepancy between verbal and performance intellectual level or

(B) When the individual's achievement on individually administered, standardized tests in reading, mathematics or written expression is substantially below that expected for age, schooling and level of intelligence (DSM, current edition).

(7) **Mental Disorders.** Individuals may be eligible for vocational rehabilitation services based on a mental health diagnosis made by a qualified professional (612:10-7-98 (17)(A)(1-5)). Documentation must be filed from a qualified professional indicating the client is participating in a treatment plan and in compliance with all medication as prescribed. Treatment must be incorporated as a service in the IPE for individuals with a mental disorder.

(8) **Intellectual Disability.** To be eligible, individuals having an I.Q. of 69 or below and substantially limited adaptive functioning, as measured by an individual intelligence test, will be considered to have a substantial disability. Individuals eligible under IDEA with an I.Q. level higher than 69 may be considered to have a substantial impairment provided the documentation used by the school in determining eligibility under IDEA, in the counselor's judgment, confirms the individual is functioning in the intellectual disability range of ability. Individuals not enrolled in public school special education classes with an I.Q. higher than 69 may be considered to have a substantial impairment provided appropriate documentation confirms the individual is functioning in the intellectual disability range of ability.

(9) **Height.** To be eligible, a person's stature must constitute or result in a substantial impediment to employment.

(10) **Obesity.** To be eligible, a person must be considered obese according to a recognized medical classification protocol and the impairment must constitute or result in a substantial impediment to employment. Some type of weight loss plan or treatment for obesity must be included as a service in the IPE.

(11) **Visual.** Any of the following conditions may provide a basis for eligibility due to visual disability:

(A) **Blindness.** A central visual acuity of 20/200 or less in the better eye with best correction, or a limitation in the field of vision in the better eye so that the widest diameter of the visual field subtends an angle of 20 degrees or less. "Best
correction” refers to the use of standard eyeglasses or contact lenses, and does not include use of bioptic telescopic systems or any specialized lenses which cannot be worn by the individual on a sustained basis.

(B) **Visual impairment.** A central visual acuity of 20/60 or less in the better eye with best correction, or other visual condition which, for the individual, results in functional limitations and constitutes a barrier to employment. Other visual conditions which may result in functional limitations include, but are not limited to, limited peripheral vision, extreme light sensitivity, loss of depth perception, loss of stereopsis, diplopia (double vision), aphakia, total absence of color discrimination or red-green deficiency, blurred vision, eye muscle and movement conditions, and cortical visual impairment.

(C) **Progressive eye disease.** Diagnosis of a progressive sight threatening disease or condition that has resulted in functional limitations for the individual or is expected to progress rapidly. Progressive eye diseases which may result in significant vision loss include, but are not limited to, retinitis pigmentosa, diabetic retinopathy, glaucoma and macular degeneration.

(12) **Re-evaluation.** Individuals with chronic disabilities that can be removed with little or no residual limitations will not be eligible for purchase of services other than those related to the required treatment.
612:10-7-24.2. Assessment for determining eligibility [AMENDED]

(a) To determine whether an individual is eligible for vocational rehabilitation services:

(1) the counselor will use to the maximum extent possible and appropriate existing data including counselor observations, education records, information provided by the individual or the individual’s family, and determinations made by officials of other agencies; and

(2) to the extent necessary provide appropriate assessments, including provision of goods and services during the assessment, to obtain additional documentation necessary to make the determination of eligibility and priority group assignment. The counselor will carefully evaluate the need to provide assistive technology devices and services or worksite assessments.

(b) The counselor will determine whether an individual is eligible for vocational rehabilitation services within a reasonable period of time, not to exceed 60 days after the individual has submitted an application for services. This time period may be extended only when unforeseen and exceptional circumstances beyond the control of the Department preclude completing the determination of eligibility within the 60 days and the individual agrees a specific extension of time is warranted as documented on the Need for Extension of Time to Determine Eligibility form; or a trial work period or an extended evaluation is needed to determine the individual's ability to benefit from VR services.

(c) Documentation that the individual has a disability which constitutes or results in an impediment to employment must come from qualified professionals.

(d) Eligibility determinations will be expedited for applicants who have been determined eligible for vocational rehabilitation services by an American Indian Vocational Rehabilitation Services (AIVRS) Program. Counselors will work cooperatively with the applicable American Indian VR Program to obtain pertinent diagnostic and other documentation, and utilize such documentation, as appropriate, in making eligibility decisions that are prompt or, whenever feasible, immediate.

(e) A qualified rehabilitation professional may proceed with a determination of eligibility if there is an obvious and/or observable disability that results in an impediment to employment. The VR specialist will document observations pertaining to the applicant’s disability. After making the determination of eligibility the VR specialist may authorize any assessments and services necessary to further document eligibility, establish priority group placement and determine rehabilitation needs for development of the Individualized Plan for Employment.

(f) Diagnosis and evaluation are to be provided only for determination of eligibility for VR services, priority group placement, and determination of VR service needs. DVR and DVS DSBVI funds are not to be used to assist an individual in establishing eligibility for other programs.

(g) When necessary, diagnostic evaluations may be purchased at any time during the life of the case.

(h) If an individual is determined eligible, the VR counselor will notify the individual in writing. If the individual is determined to be ineligible, the counselor will notify the applicant and provide information on further options in accordance with DRS policy on ineligibility decisions.
(i) **Eligibility for supported employment.** The counselor may not find an individual ineligible for supported employment services because a resource for providing extended services cannot be identified. In this instance, the counselor will:

1. accept the individual as eligible for VR services;
2. plan VR services as appropriate, including the expected availability of extended services; and
3. seek out and/or help in developing the needed extended services resource.
612:10-7-25.1. Order of selection [AMENDED]

(a) Need for order of selection. The Department, in consultation with the Oklahoma Rehabilitation Council, has determined, due to budgetary constraints or other reasoned limitations, that it cannot serve all individuals who are determined eligible for DVR and DVS DSBVI services. The Department consults with the Oklahoma Rehabilitation Council regarding the:

1. need to establish an order of selection, including any re-evaluation of the need;
2. priority categories of the particular order of selection;
3. criteria for determining individuals with the most significant disabilities; and
4. administration of the order of selection.

(b) Priority groups. It is the policy of DRS to provide vocational rehabilitation services to eligible individuals under an order of selection. Under the order of selection, the Department has established three priority groups on the basis of serving first those with the most significant disabilities. Every individual determined to be eligible for DVR and DVS DSBVI services is placed in the appropriate priority group based upon the documentation used to determine eligibility and/or vocational rehabilitation needs. Selection and placement in a priority group is based solely upon the significance of the eligible individual's disability, and is not based upon the type of disability, geographical area in which the individual lives, projected type of vocational outcome, age, sex, race, color, creed, religion, or national origin of the individual. The priority groups are:

1. **Priority Group 1.** Eligible individuals with a most significant disability are individuals with the most significant barriers to employment. A most significant barrier is one that includes a severe mental or physical impairment resulting in serious limitations in three or more functional capacities and which can be expected to require multiple vocational rehabilitation services over an extended period of time.

2. **Priority Group 2.** Eligible individuals with a significant disability are individuals with significant barriers to employment. A significant barrier is one that includes a severe physical or mental impairment resulting in serious limitations in at least one, but not more than two, functional capacities and which can be expected to require multiple vocational rehabilitation services over an extended period of time.

3. **Priority Group 3.** Eligible individuals with disabilities not meeting the definition of individual with a significant or most significant barrier to employment.

(c) Implementation. Prior to the start of each fiscal quarter, or when circumstances require, the DRS Director will determine in which priority groups new Individualized Plans for Employment will be written and initiated. The Director may restrict the writing and initiation of new Individualized Plans for Employment within a priority group to cases having eligibility dates falling on or before a specified date providing that all consumers in higher priority groups are being served. Considerations in making this determination will include, but not be limited to, the projected outcomes, service goals, expenditures, and resources available for each priority group. Projected costs and resources for each priority group will be based upon costs of current Individualized Plans for Employment, anticipated referrals, availability of financial resources, and adequacy of staffing levels. The Director will implement actions under the order of selection through written notice to DVR and DVS DSBVI staff. The written notice will specify the implementation date of the action and direct DVR and DVS DSBVI...
staff on how to handle cases by priority group and application date. DVR and DVS DSBVI staff will inform each eligible individual on their caseloads:

(1) of the priority groups in the order of selection;

(2) of the individual's assignment to a priority group; and

(3) of the individual's right to appeal that assignment.

(d) Closing and opening priority groups. When all or part of a priority group is closed, designated cases within that priority group without a written IPE will be placed on a waiting list after the individual has been determined to be eligible. No IPE will be written for cases on the waiting list. Staff will continue to take applications, diagnose and evaluate all applicants to determine eligibility and vocational rehabilitation needs, find the individual eligible when documentation supports such a decision, then place each eligible individual's case in the appropriate priority group. If an eligible individual is placed in a closed priority group, his or her case will go on the waiting list and no IPE will be written or initiated. The DRS Director will notify DVR and DVS DSBVI staff in writing when all or part of a closed priority group is opened. When this directive includes new applicants who are found eligible, individuals already on the waiting list within that same priority group will be given priority over new applicants. When all or part of closed priority groups are opened, staff will contact individuals on the waiting list to develop and implement their Individualized Plans for Employment using the priorities in Paragraphs (1) - (3) of this Subsection:

(1) contact individuals within the highest open priority group first, Most Significant being the highest of all priority groups;

(2) within each opened priority group, staff will contact individuals on the waiting list in order of application date, earliest application date first; then

(3) staff will contact individuals whose cases will remain on the waiting list to explain how their cases will be handled.

(e) Continuity of services. Any individual with an IPE that existed prior to the date all or part of that individual's priority group was closed will continue to receive services as planned. Such an IPE may be amended if the changes are necessary for the individual to continue progress toward achieving an appropriate employment outcome, or are otherwise necessary within policy. Persons requiring post employment services will also be provided the necessary services regardless of priority group assignment.

(f) Information and referral services. Information and referral services will remain available to eligible individuals who are not in an open priority group. These individuals will be given information and guidance, using appropriate modes of communication, to assist such individuals in preparing for, securing, retaining or regaining employment, and will be appropriately referred to Federal and State programs (other than the vocational rehabilitation program) including other components of the statewide workforce investment system in the state. No IPE will be written to provide such services to these individuals.
612:10-7-31. Transfer of cases [AMENDED]

(a) **Transfer of cases between caseloads.** When it has been determined an individual has moved from one counselor’s area to another, the individual could be served more appropriately under another DVR or DVS DSBVI program, or in the supervisor’s opinion, transfer is in the best interest of the individual, the case will be transferred.

(b) **Transfer of cases between programs.** Prior to transferring a case between DVR and DVS DSBVI, the transferring counselor must obtain the required specialist information to support the change of primary disability. The transferring counselor will review the case record to ensure it is complete, accurate and contains the information necessary for the receiving counselor to find the individual and continue services without interruption.
612:10-7-50. Eligibility Status [AMENDED]

(a) Use of Eligibility Status. An active case is defined as one which has been accepted as meeting the basic eligibility requirements. An applicant who has been determined eligible for vocational rehabilitation will be placed in Eligibility Status for completion of a comprehensive assessment to determine employment goal and rehabilitation needs and for development of the Individualized Plan for Employment (IPE). An individual who is placed in an order of selection priority group that is not currently being served will be placed on a waiting list and held there pending further directives from the Director concerning opening or closing of priority groups.

(b) Case recording requirements. The counselor records activities during this period by individual entry or by summary recording at regular intervals in case narratives. Copies of pertinent case information will be shared with all DVR or DVS DSBVI professionals involved in the case. During eligibility status and throughout the life of the case, DVS DSBVI counselors and rehabilitation teachers will share pertinent information related to a case they jointly serve. Pertinent case information will also be shared with contracted vendors, when appropriate, with a release signed by the client. If an IPE cannot be developed during this period, the client's case is closed with a full explanation to the client and documentation as to the reason for closing the case. This documentation will be completed on a closure letter and a copy given to the client.
Individualized Plan for Employment [AMENDED]

(a) Options for developing the Individualized Plan for Employment (IPE). The VR counselor will provide the eligible individual, or the individual's authorized representative, in writing and in appropriate mode of communication, with information on the individual's options for developing the IPE.

(1) The required information will include the following:

(A) information on the availability of assistance, to the extent determined to be appropriate by the eligible individual, or authorized representative, from a qualified VR counselor in developing all or part of the IPE, and the availability of technical assistance for this purpose;

(B) a description of the required content of the IPE;

(C) as appropriate:

(i) an explanation of agency requirements for client participation in cost of services;

(ii) additional information requested by the individual or authorized representative;

(iii) information on the availability of assistance in completing DVR/DVS DVR/DSBVI forms required in developing the IPE;

(iv) For cases involving Mental Disorders and Obesity, treatment must be incorporated as a service in the IPE, in accordance with DRS policy.

(D) a copy of a DRS publication addressing client's rights and responsibilities.

(2) For cases in an open priority group, the IPE must be completed and signed as soon as possible, consistent with the needs of the individual, but not more than 90 calendar days following the eligibility determination, unless the individual or the authorized representative and the VR or VS SBI counselor jointly agree to an extension of time of a specific duration. The 90-day time frame for development of the IPE will be applied from the date a closed priority group is reopened.

(b) Vocational objective. The primary purpose in providing vocational rehabilitation services is to assist an eligible individual obtain appropriate competitive employment in an integrated setting consistent with the individual's informed choice. The choice of a vocational objective for an individual receiving vocational rehabilitation services must be based primarily upon the individual's strengths, resources, priorities, concerns, abilities, interests and capabilities, consistent with the general goal of competitive integrated employment.

(1) Informed choice. The vocational objective is to be chosen with the full participation of the client. The client's interests and informed choice determine his or her vocational goal to the extent these factors are consistent with the client's strengths, resources, priorities, concerns, abilities, interests and capabilities.

(2) External conditions. Factors such as the local labor market or local economy must also be taken into consideration. However, in most cases these factors cannot be used as the only basis upon which to determine whether a vocational objective is appropriate.
(c) **General requirements for the Individualized Plan for Employment.**

(1) The IPE documents the client's chosen employment goal, and the planning of vocational rehabilitation services which are necessary to achieve a successful employment outcome. The client will be a full participant in the development of the IPE or any amendments consistent with Federal and State regulations, laws, and statutes. The eligible individual must be given the opportunity to exercise informed choice in selecting an employment outcome, the specific VR services to be provided under the plan, the service providers, and the methods for service delivery. For cases in an open priority group, the IPE must be agreed to and signed by the eligible individual or authorized representative, approved by a VR counselor and, as appropriate, other administrators employed by DVR or DVS DSBVI within 90 days of determination of eligibility, unless the individual or the authorized representative of the individual and the VR or VS SBVI counselor jointly agree to an extension of time of a specific duration. To the maximum extent possible, the IPE is to be provided in the native language or mode of communication of the individual or, as appropriate, of a parent, family member, guardian, advocate, or authorized representative. It is also required the client receive a copy of the plan and any subsequent amendments.

(2) The IPE is subject to continuous development and change. Substantial changes to the IPE are documented as amendments. A substantial change is broadly defined as any change in the employment objective, or in service needs or available resources not accounted for in the original IPE or existing amendment(s). The amount of any client participation in the cost of a service will be based upon the determination of client's financial status completed at the time the relevant IPE or amendment is written, and is to be stated in the IPE or amendment. If services based upon financial status are included in the original IPE and/or in the amendment, a new Financial Status Determination form will be completed when the IPE is amended. A copy of any Amendment to an Individualized Plan for Employment will be given to the client, or client's authorized representative, as appropriate.

(3) Diagnosis related to eligibility or the IPE can be provided at any time it is necessary during the life of the case.

(4) An IPE is not considered in effect until all required approvals have been obtained in accordance with Department policy.

(5) Plan reviews are comprehensive reviews of the entire IPE. A plan review can be done at any time, but must be done at least annually. The client must be given the opportunity to review the plan and, if necessary, participate in its redevelopment and agree to its terms. A financial status determination will be completed at the time of plan review when the IPE includes services based upon client's financial status.

(d) **Content of the Individualized Plan for Employment.** The Individualized Plan for Employment must include:

(1) a description of the specific employment outcome that is chosen by the client consistent with the individual’s unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice consistent with the general goal of competitive integrated employment (except that in the case of a student or a youth with a disability, the description may be a description of the individual’s projected post-school employment outcome), and the estimated timeframe for the achievement of the employment outcome;

(2) a description of the specific VR services that are:
(A) needed to achieve the employment outcome including as appropriate, the provision of assistive technology services and devices, and personal assistance services, including training in the management of such services;

(B) provided in the most integrated setting that is appropriate for the service involved and is consistent with the informed choice of the client; and

(C) timelines for the achievement of the employment outcome and for the initiation of services.

(3) a description of the service provider chosen by the client or authorized representative, and the methods of services delivery;

(4) a description of the criteria that will be used to evaluate progress toward achieving the employment outcome;

(B) the source of the extended services, including natural supports, or an explanation concluding there is a reasonable expectation a source will become available; and

(C) the weekly work goal.

(7) if it appears they will be necessary, a statement of needed post-employment services.
612:10-7-55. Job Ready [AMENDED]

(a) **The Use of Job Ready status.** Status: This status is used when services incidental to placement are the only services being provided. Job Ready Status is used to identify individuals who are qualified, willing and able to begin an active job search. Job Ready Status can also be used for individuals pursing a variety of work experiences, including internships, apprenticeships, or temporary jobs to supplement income while attending school or receiving other vocational rehabilitation services. Job Ready status can be used at any time during the life of the case, once an Individual Plan for Employment (IPE) is in place.

1. Job Ready Status should only be used after consultation with the Participant to insure the person is aware they are considered an active job seeker and may be contacted about employment or work experiences in which they have expressed an interest. Also, Job Ready Status should not be used for those who have been referred to an Employment Services Provider for assistance with services such as Employment & Retention, Customized Employment Supported Employment, etc.

2. Those individuals who are in job ready status but are no longer participating in a job or work experience search should be removed from Job Ready Status. Individuals who have located a job or work experience and are not currently pursuing another position should also be removed.

(b) **Supported employment.** Cases are placed in Job Ready status at the beginning of the "Job Stabilization" Milestone. The "Job Stabilization" Milestone is complete when the client has reached the minimum number of weeks of employment required in the contract, is working the minimum work hours set in the weekly work goal defined in the IPE, and all other requirements of the contract are met.

(e) **Case recording Requirements.** Case recording in this status must document that the client is ready for employment, the fulfillment of the counselor’s responsibility to assist the client with placement, and the client’s efforts to obtain employment. The information on the Job Ready page in AWARE case management system should be completed in conjunction with the Participant to insure it is accurate and timely. The information should be reviewed periodically to make sure it is up-to-date.
Actions requiring supervisory approval include:

1. All actions of a newly employed counselor/teacher.
2. All IPE's or amendments when the total of the planned DVR and DVS DSBVI expenditures for the entire case exceed $25,000.
3. All case closures in which an IPE was developed and the case was placed into service status or beyond.
4. Transfer of cases from one counselor/teacher caseload to another outside the sending supervisor's unit (signed by the supervisor of the sending counselor or teacher).
5. All IPE's which include purchase of physical or mental restoration services, prescription drugs or prescribed medical supplies lasting more than three months.
6. Small Business plans with a cost to the agency in excess of $10,000.00.
7. Vehicle or home modifications over the DCAM authority order limit and housing modifications involving structural modifications.
8. Vehicle repairs that exceed $1,000.00 for the life of a case.
9. Dental services with a projected cost over $5,000.00.
General guidelines for physical and mental restoration services

(a) To the extent that assistance is not readily available from a source other than DVR or DVS DSBVI, diagnosis and treatment of physical and mental impairments may be provided to assist the individual with a disability in preparing for, securing, retaining or regaining employment. Physical or mental restoration services are provided only when the condition is stable, or slowly progressive. A slowly progressive condition is one in which the client's functional capacity is not expected to diminish so rapidly as to prevent successful completion of vocational rehabilitation services, and/or employment for a reasonable period of time. The individual is liable for services he or she arranged which were not planned and initiated under the auspices of DVR and DVS DSBVI. DVR and DVS DSBVI will not pay for hospitalization or treatment occurring prior to initiation of an Individualized Plan for Employment (IPE). DVR and DVS DSBVI will not pay for emergency hospitalization or treatment needed at the time of referral. However, diagnostic examinations or information may be paid from DVR and DVS DSBVI funds for use in eligibility determination, priority group placement, or determination of vocational rehabilitation needs. Physical and/or mental restoration services will be purchased only from licensed or board certified health professionals unless otherwise specified in DRS policy. Payment will be made in accordance with the established fee schedule of the Department.

(b) Temporary conditions with sudden onset do not fall within the definition of impairment for eligibility purposes. Emergency treatment of remediable conditions will not be purchased by DVR and DVS DSBVI except under intercurrent illness policy. When the staff is in doubt as to the effect of such a condition upon the outcome of the IPE objectives, a medical consultation may be requested.

(c) DVR and DVS DSBVI do not provide long-term or ongoing physical or psychological treatment. DVR and DVS DSBVI funds cannot be used to initiate treatment that is reasonably anticipated to last more than three months unless supervisory approval has been obtained for a three month extension. Additional three month extensions may be approved if the client maintains reasonable progress toward achieving the vocational goal. Persons needing long-term or ongoing treatment are to be referred to other medical assistance sources if available.

(d) Payment from DVR and DVS DSBVI funds may be planned and authorized only after applicable third party pay sources provide verification of the expense they will cover, and not cover, associated with the physical or mental restoration services in question. When DVR and DVS DSBVI funds are used to supplement a third party pay source, planned services and the authorization will be limited to those expenses that fall within the scope of the program and that do not exceed the difference between what the third party pay source will pay and the Department’s established payment schedule.

(e) Individuals with chronic disabilities that can be removed with little or no residual limitations will not be eligible for purchase of services other than those related to the required treatment.

(f) Physical and mental restoration services may include but are not limited to:

(1) Braces and orthotic devices.

(2) Chiropractic services. A chiropractor providing treatment must be duly licensed to practice his profession in Oklahoma, have a current provider/vendor agreement with DRS, and following evaluation of the client’s needs, must provide a treatment plan with goals, time frames and the estimated number of treatments required to meet the goals.
Treatment may not be extended beyond three months unless progress toward treatment goals can be determined.

(3) Dental services. Dental services may be provided to treat or correct dental conditions that constitute an impediment to employment or participation in the rehabilitation process, produce health problems or aggravate an existing disability. Dental services with a projected cost over $5,000.00 require review by the DRS dental consultant and supervisory approval.

(4) Dialysis and treatment for end-stage-renal-disease. DVR and DVS DSBVI may assist with the cost of Medicare deductible, co-insurance, and services not covered by Medicare if documentation states other resources are not available and the client is actively participating in an IPE with treatment as part of the plan. Requests for kidney transplants must be approved by the medical consultant.

(5) Prescription drugs and prescribed medical supplies. Prescription drugs and/or prescribed medical supplies may be purchased when required for proper diagnosis, for post-operative treatment, or to stabilize a documented disability. The need for the drugs and/or medical supplies must be documented in a physician's report. Payment will be made for generic type drugs unless the physician specifically requests a brand name drug.

(6) Hearing aids and audiological services.

(7) Hospitalization when recommended by a physician and the client is to receive medical treatment or surgery. Hospitalization may also be authorized for diagnostic services upon recommendation of a physician.

(8) Treatment for intercurrent illness. Intercurrent illness is an illness or injury which occurs during the course of an individual's vocational rehabilitation and, if not treated, will complicate or significantly delay achievement of the client's employment outcome. DVR and DVS DSBVI will purchase treatment for intercurrent illness or injuries if the client is not covered by health insurance or eligible for comparable services and benefits, or when the provision of services through comparable services and benefits would significantly interrupt or delay treatment for an individual at extreme medical risk, jeopardize a job placement or impair the individual's progress in achieving the planned employment outcome.

(9) Laboratory work and x-rays if required by the physician to complete his examination or in conjunction with diagnosis or treatment.

(10) Low vision services.

(11) Medical examinations, when necessary to determine eligibility, achieve a goal in the IPE or when related to an intercurrent illness.

(12) Nursing services can be provided for a client who is convalescing from physical restoration services if recommended by the doctor of treatment. Either Registered Nurses or Licensed Practical Nurses may be used to provide this service when a current medical vendor agreement is on file with the Department. Volunteers may be used if less technical care is needed and if approved by the client's physician.

(13) Physical and occupational therapy may be provided on either an in-hospital or outpatient basis if recommended by the attending physician.
(14) Post-operative care of cataract patients.

(15) Prosthetic eyes, glasses and other optical aids.

(A) Glasses and other visual aids and services may be prescribed or provided by either an ophthalmologist or an optometrist. Other optical aids recommended by optical aid clinics are purchased upon the recommendation of the specialist(s) in one or more such clinics. Prosthetic eyes are provided, upon the recommendation of an ophthalmologist.

(B) Lenses and frames for glasses purchased by DRS will be authorized at fee schedule prices. The vendor may add a service charge not to exceed the established fee. An additional code and fee may be added for tinting if it has been prescribed by the physician or optometrist that performed the eye examination with written medical/vocational justification.

(C) The fee that has been established for frames will only cover the cost of plain sturdy frames. Clients do not have the option of selecting more expensive frames and paying the difference between the vendor's price and the amount authorized. If the vendor accepts payment from the client or a representative of the client and also files a claim with the Department for the same services, a violation of the Provider Agreement has occurred and the vendor would be subject to sanctions.

(D) If a client selects special frames and has sufficient resources to purchase them, the frames should not be included on the authorization and the client would be responsible for the entire cost of the frames.

(16) Prosthetic limbs.

(A) Prosthetic limbs may be provided if the prosthesis is recommended by a physician. The client who has successfully worn a prosthesis will not be required to see an orthopedist or physiatrist, or attend an amputee clinic unless some other disorder is apparent.

(B) An individual who has never worn a prosthesis must be seen by a physician before the prosthesis is provided. The client must agree to training in its use. Gait training is considered Personal Adjustment Training and does not require client participation in cost. However, physical therapists providing the training are recognized as medical vendors and require authorizations completed on a Medical Service Authorization.

(C) Persons with multiple amputations must have the special examination and training.

(D) The counselor may authorize for a prescribed standard prosthesis without further review. The choice of prosthesis must be closely related to its intended use in a work setting, or in relation to reasonable independent living goals. Non-standard prostheses (i.e., myoelectric) will not be purchased with DRS funds unless medically justified and/or required for a specific employment, or independent living, outcome. When a prosthesis other than a standard prosthesis is prescribed the counselor will request a consultation from the appropriate medical consultant. Justification for the non-standard prosthesis must be documented in the case record.

(A) Psychotherapy may be provided for emotional conditions which may be expected to respond within a reasonable period of time. Psychotherapy can be provided only by the sources in (1) - (5) of this Subsection.

(i) Psychiatrists certified by the American Board of Psychiatry and Neurology or completed the required training and are "Board Qualified", or who have spent a major portion of their time in a particular specialty for at least two years and are recognized as specialists in the local community (same criteria as applied to other medical specialists).

(ii) Licensed Doctors of Medicine or Doctors of Osteopathy who have received specific training for and are experienced in performing mental health therapeutic, diagnostic, or counseling functions.

(iii) Psychologists with a doctorate in clinical or counseling psychology who hold a valid license to practice psychology.

(iv) Psychologists with a doctorate in clinical or counseling psychology who are employed by governmental agencies exempt from the licensing law.

(v) Other licensed clinicians or those employed by governmental agencies who have received administrative approval to provide this treatment service.

(B) Upon receipt of a written report from the therapist, the supervisor may approve additional three-month periods of therapy. Clients needing long-term or ongoing psychiatric or psychological treatment will be referred to the appropriate community mental health center.

(C) Personal Adjustment Counseling may be provided for those persons with emotional conditions who may benefit from counseling to bring about a more adequate social adjustment, alleviate superficial anxiety, and to create more effective interpersonal relationships. Personal Adjustment Counseling may be provided by: those individuals listed in (17) (A) of this Subsection.

(18) Speech therapy/training as recommended in a speech evaluation. Speech therapy, although provided by recognized speech therapists, is considered Personal Adjustment training and is not based on financial status. The providers of speech therapy are classified as medical vendors.

(A) Surgery and complex or unusual medical treatment may be provided when recommended by a specialist. Medical consultant approval will be obtained prior to planning and authorizing a diagnostic procedure which could lead to immediate surgical treatment. The medical consultant will give conditional approval for the possible surgery if deemed necessary. Normal post-operative care is an integral part of the surgery; therefore, no post-operative charges are to be paid above the approved surgical fee.

(B) Specified outpatient surgical services are approved for payment when provided in qualified outpatient surgical facilities. Qualified facilities include Medicare certified free standing ambulatory surgical centers, Medicare certified hospitals offering outpatient surgical services, and hospitals which have an agreement with DRS.
(C) The counselor will advise the client he/she may be liable for any balance due when payment by private insurance exceeds the Department allowable rate.

(20) Weight loss treatment. A weight loss plan or treatment are included as a service in the IPE for individuals who are eligible on the basis of obesity. A licensed dietician or a physician skilled in weight reduction must monitor any treatment program authorized by the agency. Surgery for weight loss is not provided unless medically recommended as treatment for morbid obesity, a second confirming medical opinion is obtained, the surgery is approved by the DRS medical consultant and supervisory approval is obtained. Before approving DRS provision of surgery for treatment of morbid obesity, the supervisor shall consider the individual’s past experience with standard weight loss protocols, and medical and behavioral factors that may impact the individual’s ability to obtain long-term benefit from the surgery.

(21) Wheelchairs and other durable medical equipment when prescribed by a physician or recommended by an occupational therapist, physical therapist, assistive technology specialist or person with equivalent qualifications. Power mobility devices may be purchased for individuals when necessary to assist the client in achieving IPE goals.

(A) The client, and/or client’s authorized representative, will participate in choosing from which vendor the wheelchair or durable medical equipment will be purchased. Wheelchairs and other durable medical equipment will be authorized at the agency approved fee.

(B) The client, or client’s family or authorized representative as appropriate, is responsible for maintaining wheelchairs or other durable medical equipment in good working order. DVR and DVS DSBVI will pay for repairs to wheelchairs or other durable medical equipment during the life of the case unless there is clear evidence the equipment has been damaged due to client abuse or neglect. An agency-purchased wheelchair will be returned to the agency if the client becomes unable to use it.

(C) Wheelchair rental may be authorized for a period not to exceed six months when necessary to assist the client with mobility. An exception can be made if it is documented that rental is more cost effective than purchase.
(a) **General guidelines.** Maintenance is a supportive service provided to assist with the out-of-ordinary or extra expenses to the individual resulting from and needed to support the individual’s participation in diagnostic, evaluative, or other substantial services in the IPE. Maintenance, including payments, may not exceed the cost of documented expenses to the individual resulting from service provision. Authorizations for maintenance will not be issued to pay the cost, or part of the cost, for any other service or expense.

(b) ** Provision of maintenance.** To receive maintenance, an individual must be either an eligible DVR or DVS DSBVI client or an applicant for vocational rehabilitation services undergoing diagnostic evaluation and testing. For an accepted client, maintenance must be a supportive service related to outcomes listed in the Individualized Plan for Employment. The costs of the maintenance may not exceed the amount of increased expenses that the IPE causes for the individual or his/her family. The provision of maintenance as a supportive service is not synonymous with general assistance payments. It is not intended to pay for those living costs that exist irrespective of the individual’s status as a DVR and DVS DSBVI client. Maintenance payments must be carefully tied to the achievement of specific VR outcomes which must be stated and documented in the case record and the IPE to justify such payments. Maintenance cannot substitute for or supplement income assistance payments.

1. **Maintenance for diagnostic and evaluation services.** Maintenance payments for individuals receiving diagnostic or evaluation services may be authorized for overnight care, short-term lodging and/or meals.

2. ** Maintenance for physical restoration services.** Maintenance for physical restoration services is paid to the client until he/she is able to work. The client must be in his/her own home and the covered period of convalescence is to be 60 days or less. For convalescent periods in excess of 60 days, the counselor will refer the client to other sources for assistance (public assistance, SSI). In no instance will medical maintenance be paid while the client is hospitalized.

3. ** Maintenance for training.** Maintenance can be authorized for full time vocational school students or college students. Maintenance can be authorized for a client granted an exception to the full-time attendance requirement under 612:10-7-150(a). DRS will not pay for assistance with room and board expenses if there is a state funded vocational school, college or university within 40 miles of the client’s official residence. In addition, DRS will only sponsor room and board expenses related to on-campus housing options with the lowest cost. Exceptions to this policy may be granted due to issues such as disability requirements. All exceptions must be approved by the Programs Manager and thorough justification must be documented in the case.

4. ** Maintenance for job search services.** Maintenance for job search services requires an IPE with major services directed toward the goal of employment.

5. ** Maintenance for job relocation.** Maintenance may be paid to a client for assistance in relocating to a new job site. Maintenance services for this purpose must be identified on the IPE.

(c) Clothing expenses. Clothing and/or uniforms can be purchased when needed to begin training or enter employment. Everyday clothing needs of the client are considered as part of the basic living requirements. Any clothing purchased for the client must be:

1. required by the training facility;
(2) necessary to participate in job search or begin employment; or

(3) necessary to begin a training program that requires clothing standards beyond the client's means.

(d) **Day care expenses.** Day care expenses will be paid for from DVR and DVS DSBVI funds only when necessary to participate in the IPE, and it is fully documented that no other resources are available for this service, including family members and friends.
(a) **Types of training.** Training provided by DVR and DVS DSBVI may include:

(1) **Vocational.** Vocational training provides the knowledge and skills necessary for performing the tasks involved in an occupation. Such knowledge and skills may be acquired through training from an institution, on-the-job, by tutors or through a combination of these methods. Vocational training may be provided for any occupation.

(2) **Prevocational.** Prevocational training includes any form of academic or basic training provided for the preparatory skills needed for entrance into a vocational training program or employment. Prevocational training is initiated to enhance occupational knowledge or skills or to remove an educational deficiency interfering with employment.

(3) **Personal or work adjustment.** Personal or work adjustment training includes any training given for one or a combination of the reasons given in (A) - (D) of this paragraph.

   (A) To assist the individual in developing personal habits, attitudes, and skills enabling the individual to function effectively in spite of disability.

   (B) To develop or increase work tolerance prior to engaging in prevocational or vocational training or in employment.

   (C) To develop work habits and to orient the individual to the world of work.

   (D) To provide skills or techniques enabling the individual to compensate for a disability such as the loss of a body part or the loss of a sensory function.

(b) Training may be provided for clients who:

   (1) are mentally, physically and/or emotionally capable of pursuing a course of training to completion;

   (2) require training to achieve an employment outcome or other goals established in the Individual Plan for Employment (IPE); and

   (3) are determined to have a reasonable opportunity for obtaining employment in the chosen vocation.

(c) Decisions related to training are based on the individual needs and informed choices of the client as identified in the IPE.

(d) DVR and DVS DSBVI will only pay tuition and fees for courses which count toward requirements consistent with the vocational goal of the IPE. Training of DVR and DVS DSBVI clients is provided by colleges, universities, private business and trade schools, state supported vocational schools, employers in the form of on-the-job training, sheltered workshops, and other approved training facilities with valid contracts.

(e) Federal regulations require a search for comparable services and benefits with the results documented before payment can be made for training in the following institutions: colleges, universities, community/junior colleges, public or private vocational/technical schools, or hospital schools of nursing. PELL grants and other available Federal/State student aid (excluding merit awards) must be applied to tuition, fees and all other
educational expenses as a first dollar source prior to consideration of the expenditure of DRS funds.

(f) Training costs will not be authorized beyond the first DVR and DVS DSBVI sponsored enrollment until proof of the availability of comparable benefits is received by the counselor.

(g) Once training has begun, the client is expected to progress toward the vocational objective at a steady rate. This requires the client to attend training on a regular basis, and maintain a full-time load unless an exception is granted by the counselor due to severity of disability, scheduling problems or other valid reasons. Training progress reports or other methods of reporting (i.e., grade reports, transcripts) are utilized to document training progress. Sporadic attendance and reduced training loads causing a delay in the completion of training must be reviewed by the counselor. The client is responsible for advising the counselor of problems encountered during the training program.

(h) All types of institutional, technical, personal adjustment or employment training are purchased by an authorization issued by the counselor.
612:10-7-149. College and university training [AMENDED]

(a) Training for rehabilitation clients is provided in those colleges and universities which are accredited by the appropriate accrediting agency, whose credits will be given full recognition by other accredited colleges and universities, and which are under contract. Private and denominational colleges and universities may be used for the training of DRS clients, provided they are accredited and under contract.

(b) Clients approved for college or university training must exhibit the ability to do college work. The counselor will have evidence in the case file indicating the client's ability to do college work before a program is developed calling for training at the college or university level.

(c) For DVR and DVS DSBVI clients pursuing a college or university degree, the Department will sponsor only the number of semester hours or remaining hours required for a specific degree. Exceptions may be approved by the counselor.

(d) Previously completed credit hours which are applicable to the degree requirements will be incorporated in the development of the IPE. When a client changes majors, DVR and DVS DSBVI funding will be limited to the number of credit hours needed for the new major minus the number of DVR and DVS DSBVI funded credit hours lost due to the change in majors, unless the change in majors results from circumstances beyond the client's control.
612:10-7-150. Continued eligibility for college or university training [AMENDED]

(a) Requirements for continued eligibility. DVR or DVS DSBVI clients in college or university training will be expected to attend classes regularly and make continuous progress toward graduation. To continue assistance with college or university training, the client must maintain a cumulative 2.0 grade-point average (GPA), based on a four-point (4.0) scale. The client must carry the minimum number of semester hours determined to be full time at the school attended. Exceptions may be granted by the counselor, based on severity of disability, scheduling problems, or other valid reasons. When a client fails to meet the requirements for continued sponsorship the guidelines in (1) – (5) of this Subsection are to be followed:

(1) Payment of training services based on client’s financial status will not be provided if the client’s grades fall below 1.5 cumulative GPA.

(2) Training services may be paid for a client having a cumulative GPA between 1.5 and 1.9 for the first semester that grades fall below 2.0 cumulative GPA. Subsequent enrollments can only be paid if the student’s cumulative GPA shows progress.

(3) A client failing to meet the grade point requirement may continue to receive services not based on financial status.

(4) A client failing to meet grade point requirements may be approved by the counselor if there are extenuating circumstances beyond the client’s control.

(5) A client failing to meet grade point requirements will be contacted as soon as appropriate to complete a program review to determine if a change in services, vocational goal, or objectives is needed. A client failing to meet chosen goals will not have his/her case closed until the counselor has provided counseling and guidance and determined that a change in the IPE is inappropriate. The counselor should investigate the need for further vocational and/or educational evaluation to explore alternative employment goals.

(b) To continue assistance with college or university training, the client must maintain a cumulative 2.0 grade-point average (GPA), based on a four point (4.0) scale. The client must carry the minimum number of semester hours determined to be full time at the school attended. Exceptions may be granted by the counselor, based on severity of disability, scheduling problems, or other valid reasons. When a client fails to meet the requirements for continued sponsorship the guidelines in (1) – (5) of this Subsection are to be followed:

(c) The client must maintain at a minimum the cumulative GPA required by the Institution for the client’s major field of study. If the client is unable to consistently maintain the minimum cumulative GPA for their chosen field of study, the Counselor will reassess the justification for continued training and whether a change in vocational goal is necessary.

(d) The client must carry the minimum number of semester hours determined to be full time at the school attended. Exceptions may be granted by the counselor, based on severity of disability, scheduling problems, or other valid reasons.

(e) When a client fails to meet the requirements for continued sponsorship the guidelines in (1) – (5) of this Subsection are to be followed:

(1) Payment of training services based on client’s financial status will not be provided if the client’s grades fall below 1.5 cumulative GPA.
(2) Training services may be paid for a client having a cumulative GPA between 1.5 and 1.9 for the first semester that grades fall below 2.0 cumulative GPA. Subsequent enrollments can only be paid if the student’s cumulative GPA shows progress.

(3) A client failing to meet the grade point requirement may continue to receive services not based on financial status.

(4) A client failing to meet grade point requirements may be approved by the counselor if there are extenuating circumstances beyond the client’s control.

(5) A client failing to meet grade point requirements will be contacted as soon as appropriate to complete a program review to determine if a change in services, vocational goal, or objectives is needed. A client failing to meet chosen goals will not have his/her case closed until the counselor has provided counseling and guidance and determined that a change in the IPE is inappropriate. The counselor should investigate the need for further vocational and/or educational evaluation to explore alternative employment goals.

(f) Withdrawals and failures. Clients who withdraw or fail courses paid by DVR and DVS DSBVI will be required to pay for a like number of hours during the following enrollment period subject to the guidelines in (a) of this Section.
(a) **Public institutions of higher learning.** Tuition and fees for DVR and DVS DSBVI clients attending public colleges and universities will be paid at the rate set for resident students by the Oklahoma Regents for Higher Education and within limits prescribed by the Legislature. DVR and DVS DSBVI will pay those fees charged to all students and special fees associated with required courses in the student’s major field of study.

(b) For the first 60 credit hours or during the completion of an Associate’s degree, DRS will only sponsor up to the cost of tuition and fees charged by the local state funded community college or state university within 40 miles of the client’s official place of residence. If the client chooses to attend a different training site, DRS will only sponsor an amount equivalent to the amount that would be sponsored if attending the local college/university. Additional transportation or maintenance costs related to attending another training site will not be sponsored by DRS.

(c) For the completion of a Bachelor’s degree, DRS will only sponsor up to the cost of tuition and fees charged by the state funded college or university closest to the client’s official place of residence that offers a program to reach the vocational objective. Additional transportation or maintenance costs related to attending another training site will not be sponsored by DRS.

(d) Exceptions to the policies for college/university training must be approved by the Programs Manager through justification and must be documented in the case. Possible exceptions include but are not limited to:

1. The need to attend a school outside of the 40 mile limit is due to disability related factors such as the need for accessible on-campus housing.
2. The degree major approved by the DRS Counselor for the client is not available at the local college or university.

(e) After the completion of the first semester, a grade report, proof of enrollment, and an itemized invoice are required documentation to support the authorization for tuition and fees. It is the responsibility of the client to provide this support documentation. The client may provide this documentation electronically or as a printed document in the standard format used by the school.

(f) **Private institutions of higher learning.** Tuition and fees for students in attendance at accredited private or denominational schools will be paid at the same rate as that paid at state-supported colleges or universities of equal rank. After the completion of the first semester, a grade report, proof of enrollment, and an itemized invoice are required documentation to support the authorization for tuition and fees. It is the responsibility of the client to provide this support documentation. The client may provide this documentation electronically or as a printed document in the standard format used by the school.

(g) **Federal/State student aid.** Pell Grant and all other Federal/State aid (excluding merit awards) must be applied to tuition, fees and all other educational expenses as a first dollar source prior to the consideration of the expenditure of DRS funds regardless of whether the student is attending a public or private institution of higher education.

(h) **Cost documentation.** Each client is responsible for providing the counselor a copy of the college or university’s current semester costs before the designated "Drop and Add" date.
612:10-7-158. Training for individuals in custody of the Department of Corrections

[AMENDED]

DVR and DVS DSBVI funds are not used to defray the cost of training for individuals in the custody of the Department of Corrections. This does not apply to individuals who meet the criteria set forth within a joint memorandum of understanding between DRS and the Department of Corrections.
612:10-7-161. Public and private vocational schools [AMENDED]

(a) Client training may be purchased from public or private vocational schools that have a valid purchasing agreement with DRS, after use of available comparable benefits such as PELL grants and other federal/state student aid (excluding merit awards).

(b) Privately-owned vocational schools must be accredited or licensed through the appropriate state board, if applicable, before a purchasing agreement with DRS can be finalized. Tuition at privately owned vocational schools will be paid at rates approved by the Oklahoma Commission for Rehabilitation Services sitting as the Rates and Standards Committee. The authorized rate will remain constant during the contract period.

(c) Continued eligibility of a client in training at a vocational school will be based on the client's performance in respect to grades, progress and attendance. The minimum standards used by the training facility for satisfactory progress in respect to grades and attendance will be utilized by DVR and DVS DSBVI staff in determining the progress of the client.

(1) DVR and DVS DSBVI sponsored clients attending vocational technical schools who withdraw or fail course work will be required to pay for like credit or clock hours during the following enrollment period.

(2) A client who fails to meet agency sponsorship guidelines for training at vocational technical schools may continue to receive services not requiring client participation in cost of services.

(3) A client failing to meet agency sponsorship guidelines may be approved by the counselor if there are extenuating circumstances.

(4) A client failing to meet agency sponsorship guidelines will be contacted as soon as appropriate to complete a program review to determine if a change in services, vocational goal or objective is needed. A client failing to meet chosen goals will not have her/his case closed until the counselor has provided counseling and guidance and has determined that a change in the IPE is inappropriate. The counselor should investigate the need for further vocational and/or educational evaluation to explore alternative employment goals.
612:10-7-162. Textbooks, supplies, training tools and equipment [AMENDED]

(a) For clients attending training, an allowance may be provided to cover the actual cost of required books, supplies, training tools and equipment, after available comparable benefits have been applied. When an allowance is provided, the client will be required to furnish documentation of the costs of required books, supplies, tools or equipment. The counselor will work with the client in obtaining and utilizing comparable benefits including the PELL grant and planning for the use of other resources to help meet this expense. The textbook allowance will be adjusted the following semester for clients who fail or withdraw from courses paid by DVR or DVS DSBVI. Only textbooks for the current semester's enrollment will be provided.

(b) Training tools and equipment costing more than $500 will be purchased directly from the vendor in accordance with DRS policy.

(c) The client, or client's family or authorized representative as appropriate, is responsible for maintaining supplies and training tools in good working order. DVR and DVS DSBVI will pay for repairs to supplies and training tools purchased with DVR and DVS DSBVI funds during the life of the case unless there is clear evidence the supplies or training tools have been damaged due to client abuse or neglect.

(d) Gun "kits", but not operable firearms, used as training tools may be purchased for students in gun-smithing school only.

(e) The Department retains title to any tools costing $500 or more purchased for training purposes until title is released by an authorized agent of the Department. The counselor will complete the Receipt for Equipment and Title Agreement, and obtain necessary signatures, before releasing such tools to the client. Any tools purchased for training purposes remain with the client while he/she is in training and after the completion of the training if they can be used in the client's chosen vocation. If the client drops out of training, DRS at its discretion may take steps to repossess the tools to transfer to another client.

(f) Case recording must reflect the disposition of tools and materials provided the client before the case is closed.

(g) Computers and related high tech equipment necessary for the client to participate in a training program or required by the training entity may be purchased as a client service in accordance with agency policy. The cost of computers and related equipment will not be included in an allowance for textbooks and supplies.
The individual will be provided needed and appropriate ongoing support services such as job site training, transportation, service to family members, or any service necessary to achieve and maintain the supported employment placement throughout the term of employment. DVR and DVS DSBVI sponsored support services are provided from the time of placement until the individual is stabilized on the job (completion of “Stabilization Milestone”) by the service provider.
612:10-7-184. Extended services [AMENDED]

Extended services are a continuation of ongoing support services provided to individuals in Supported Employment at completion of stabilization, during the "Successful Rehabilitation" Milestone and beyond case closure. Such services consist of the provision of specific services, including natural supports, needed to maintain the supported employment placement. Extended services are specifically identified in the IPE. Except as provided by federal law with regard to youth with the most significant disabilities, extended services are paid from funding sources other than DVR and DVS DSBVI. An individual may not be found ineligible for supported employment services because the resource for providing extended services cannot be identified.
612:10-7-199. Reader/recording services [AMENDED]

(a) Reader services may be purchased for individuals who are blind, visually impaired or have difficulty reading standard print books/materials due to any other disability. Reader services are exempt from client participation in cost of service. Hours of reader service purchased shall be based upon the client’s needs with respect to reading of textbooks, training materials or other printed materials used in the rehabilitation process may be provided for those consumers who are involved in educational or vocational training, employment search or entry into employment. Clients will be expected to utilize any comparable services, including available assistive technology devices and services prior to authorization of reader services.

(b) Payment for reader services will be based on the Federal Minimum Wage, unless the counselor justifies use of a higher basis for readers of specialty subjects (e.g., law, science, technology, professions). Reader services may not be paid in advance. Payment is authorized directly to the client in the same manner as maintenance or transportation and may be included on the same authorization with either or both of these other services. Reader services are exempt from client participation in cost of service. DRS will pay up to five (5) hours of reader service per month. Additional hours of reader service may be approved by the Programs Manager with justification.

(c) Individuals who have difficulty reading or using standard print materials will be referred to existing resources for recorded, large print, Braille and digital books and materials. Any required fee or materials cost for a recorded/digital textbook service may be paid through DVR and DVS funds and is not based on financial status determination. Payment for reader services will be based on the Federal Minimum Wage. However, the counselor may authorize up to $2.00/hour above minimum wage with consideration being given to factors such as the significance of the event and the likelihood of technical/foreign language being used. Reader services may not be paid in advance. Payment is authorized directly to the client in the same manner as maintenance or transportation and may be included on the same authorization with either or both of these other services.

(d) The individual receiving the service shall maintain a record of the reading time he/she has been provided. The record must be signed and dated by the reader and the individual, and returned to the counselor at the end of each month. The record shall include:

1. Individual’s name;
2. Reader’s name and address;
3. Date service started and ended;
4. Subjects read and time devoted to each.

(e) Individuals who have difficulty reading or using standard print materials will be referred to existing resources for recorded, large print, Braille and digital books and materials. Any required fee or materials cost for a recorded/digital textbook service, reading or scanner app may be paid through DVR and DSBVI funds and is not based on financial status determination.
Rehabilitation teachers provide counseling and instruction to aid clients in adjusting to blindness and severe visual impairment. All clients who are legally blind, severely visually impaired or have a rapidly progressive eye condition are to be referred to a rehabilitation teacher. Exceptions are allowed in instances where rehabilitation teaching services have been provided and the client appears to be functioning independently, or when physical restoration services are planned which will likely restore the client's functioning to a level which would remove the need for rehabilitation teaching. Rehabilitation teachers employed by the Division of Visual Services for the Blind and Visually Impaired may serve clients who are legally blind jointly with the DRS counselor.
Services to persons who are deaf-blind [AMENDED]

(a) **Overview of services.** Because of the overwhelming impact upon the individual with a combination disability of deafness and blindness, a multiple disciplinary approach is needed to adequately serve these individuals. Unique problems in mobility and communication can cause severe social, recreational, academic deprivation and long term prevocational training may be necessary. Persons who are deaf-blind are capable of competitive employment and the counselor will carefully evaluate expected employment outcomes.

(b) **Deaf-Blindness Specialist.** To promote and coordinate appropriate services for persons with dual losses of vision and hearing, the Division of Visual Services for the Blind and Visually Impaired employs a Deaf-Blindness Specialist. This specialist works with counselors, rehabilitation teachers and others who provide services directly to clients who are deaf-blind. A major role served by this specialist is coordinating services and ensuring dialogue among schools, programs, agencies and organizations serving the deaf and blind.
612:10-7-206. Assistive technology services for individuals with visual impairments

The need for assistive technology devices and services is to be addressed in the client's Individualized Plan for Employment. Counselors and rehabilitation teachers may refer clients with visual disabilities to the Division of Visual Services for the Blind and Visually Impaired assistive technology laboratory for blindness and low vision which may provide or procure:

1. assistive technology evaluations;
2. recommendation of assistive technology devices and services to meet individual needs;
3. training in use of technology and devices, referral to training sources and information on training options;
4. information on technologies and devices to meet specific individual needs;
5. technical assistance for installation and operation of select applications and devices; and
6. demonstration and loan of adaptive aids, devices, electronic and computer technologies and other assistive technology products.
612:10-7-216. Tools, occupational equipment, initial stocks and supplies [AMENDED]

(a) Tools, occupational equipment and supplies will be provided to eligible clients to the extent necessary to achieve their vocational goal providing the client has adequate resources available for the proper maintenance and upkeep of such tools and equipment. The client, or client's family or authorized representative as appropriate, is responsible for maintaining tools, occupational equipment, initial stocks, and supplies in good working order. DVR and DVS DSBVI will not pay for repairs to tools, occupational equipment, initial stocks and supplies purchased with DVR and DVS DSBVI funds once title has been released to the client. DVR and DVS DSBVI will not pay for repairs before title is released when there is clear evidence that the damage resulted from abuse or neglect.

(b) The client will retain possession and control of articles while engaging in the job or occupation for which articles were provided, or when title is released to client. Occupational tools, occupational equipment, and initial stocks and supplies are defined as follows:

(1) Occupational tools are considered to be those minimum tools required for a designated trade, necessary to the employment of the individual, and not furnished by the employer. DRS will NOT purchase operable firearms even if required for employment. Counselor will assist consumer in finding resources to help in this purchase if necessary.

(2) Occupational equipment is equipment required to meet the minimum needs of an individual in starting and conducting a business of his or her own.

(3) Initial stocks and supplies are those materials and merchandise necessary for the client to become operational in a business.

(c) Purchase of occupational tools, equipment and initial stocks and supplies will be made in accordance with 612:10-1-7. If the client is required to participate in cost of services, the payment will be made to the nonmedical vendor. When the equipment is received and/or installed, the appropriate rehabilitation professional completes the Receipt for Equipment and Title Agreement. If the purchase total is $5,000 or more, the rehabilitation professional then signs the vendor's invoice and routes it to DRS state office.

(d) Used tools or equipment may be purchased when it is evident considerable savings may be affected. Used equipment or tools are to be appraised piece-by-piece by at least three shop owners or managers in the same type of work, and who are not acquainted with the vendor.

(e) If the counselor, after a thorough check of the tools or equipment, finds they are not being used for the purpose for which they were purchased, the counselor is to repossess the tools or equipment by executing the Release or Receipt of Equipment form.
Vehicle modification services [AMENDED]

(a) Vehicle modification services may be provided as needed to enable a Vocational Rehabilitation client to prepare for, enter or retain employment. Vehicle modifications include the range of modifications and special equipment needed by a person with an impairment to drive or be a passenger in a vehicle. Vehicle modifications above the State Capitalization rate are subject to the Prior Approval from RSA in accordance with 2 CFR 200.439.

(b) Vehicle modification services provided to an individual in the Vocational Rehabilitation program may include:

1. purchase and installation of adaptations or devices in a vehicle;
2. assistance with payment of the portion of the cost attributable to modifications pre-installed in a new or used vehicle purchased from a dealer;
3. evaluation of an individual’s ability to operate a motor vehicle;
4. prescription of required devices specific to both the individual’s needs and the vehicle; and
5. training in the operation of the vehicle.

(c) Vehicle modifications which are projected to cost the amount of the DCAM authority order limit or less will be made in accordance with 612:10-1-7. Vehicle modifications projected to cost more than the DCAM authority order limit will require additional processing by DRS Central/Departmental Services after the process is completed by the counselor as outlined in Categories A through C below. Clients purchasing new vehicles shall apply for any mobility equipment rebate available from the vehicle manufacturer and the amount of any such rebate shall be assigned to DRS.

1. Category A: New or used vehicle with structural modifications: In this process, the vehicle will be purchased by client choice and not obtained through a bid process. The client will be responsible for the purchase of the vehicle and DRS will be responsible for the costs attributable to the structural modifications.

2. Category B: New or used vehicle with structural modifications and accessibility modifications additions: In this process, the vehicle will be purchased by client choice and not obtained through a bid process. The client will be responsible for the purchase of the vehicle and DRS will be responsible for the costs attributable to the structural modifications and the accessibility modification additions. DRS will participate in this method only if the client obtains warranty from the mobility aids vendor. A copy of the warranty agreement will be obtained by the counselor and maintained in the case file.

3. Category C: Any modifications to a new or used vehicle not purchased as part of the vehicle package with a cost greater than the DCAM authority order limit will require additional processing by C/DS after the bid process is completed by the counselor in accordance with 612:10-1-7.

(d) The qualifications in (1) – (9) of this Subsection apply to all vehicle modifications.

1. The client or individual providing the transportation must have a current, valid driver’s license. If the client will be driving the vehicle and does not yet have a driver’s license, he/she must be legally permitted to drive or participate as a driving student.
(2) The name of the client must appear on the title to the vehicle and current vehicle registration. The client may be listed as a co-owner on these documents.

(3) The client must agree to maintain the vehicle for the predictable life of the equipment and is responsible for maintaining special equipment in good working order. DRS may pay for repairs to such equipment during the life of the case unless there is clear evidence that the special equipment has been damaged due to client abuse or neglect as determined by the dealer, vendor or Assistive Technology Specialist.

(4) The client must maintain both collision and comprehensive insurance on the vehicle, including the equipment.

(5) The vehicle must be evaluated by an Assistive Technology Specialist or person with equivalent qualifications (Driver Rehabilitation Instructor, Occupational Therapist, Rehab Engineer, etc.) for identification of the appropriate adaptive equipment and assessment of the compatibility of the vehicle with recommended adaptive equipment.

(6) A used vehicle must be inspected by an ASE or manufacturer certified mechanic to assure it is mechanically and structurally sound before equipment can be installed. This inspection may be authorized by the counselor if necessary. If the ASE or manufacturer certified mechanic recommends it, a separate inspection related to structural soundness will be completed. This inspection may be authorized by the counselor.

(7) Existing modifications on a new or used vehicle shall be inspected for the appropriateness of the adaptive equipment for the consumer’s needs by the Assistive Technology Specialist or other qualified person. DRS also requires documentation that existing modifications on a used vehicle have been inspected by the mobility equipment dealer/vendor to determine efficiency, quality and fair market value of the modification or adaptive equipment. This documentation may be obtained directly from the mobility equipment dealer/vendor or from the lender when such documentation has been required for loan approval.

(8) DRS will not pay the expense of replacing the equipment unless the equipment no longer meets the needs of the client as determined through review of current medical reports and assistive technology evaluation indicating replacement is required to meet the IPE goals.

(9) Certain types of vehicle modification equipment are considered "transferable" by design: i.e., hand controls, left foot accelerator, and hitch lift systems for wheelchairs/scooters. DRS may assist with the cost of transferring this type of equipment to meet the IPE goals. These modifications are categorized as non-structural modifications.

(10) When vehicle modifications are completed, installation is to be inspected by an Assistive Technology Specialist or person with equivalent qualifications, to determine if the authorized equipment conforms to prescribed standards, is properly installed and meets the functional needs of the client. The counselor must obtain a statement of satisfaction from the client.
(a) Modification of a residence may include installation of ramps, widening of doors, installation of grab bars and other accessibility modifications when such modifications are necessary to support the consumer in achievement of an employment outcome. Major structural modifications such as room additions or major wall removal will not be provided by DRS without supervisor approval. Housing modifications that will cost more than the DCAM authority order limit require supervisor approval. All housing modifications are subject to the Prior Approval from RSA in accordance with 2 CFR 200.439.

(b) In all situations where housing modification is to be done, the owner of the house must sign a written release form. In those situations where the consumer is a renter, the renter/consumer is responsible for obtaining the written release from the owner. The counselor must make a referral to the Assistive Technology (AT) Specialist who will make the evaluation of the residence and recommend the modifications needed to make the residence accessible and usable for the consumer. After modifications have been completed the counselor will contact the AT Specialist for inspection of the home, to ensure the modifications conform to prescribed standards and meet the consumers accessibility needs. The AT Specialist will provide a report to the counselor and the counselor must get a statement of satisfaction from the consumer.
612:10-7-233. Special consideration in state government employment for persons with severe disabilities [AMENDED]

(a) Oklahoma statute [74 O.S. 840-4.12] establishes provisions to promote the employment of persons with severe disabilities in state government. The law waives written entrance examinations and certain other hiring procedures administered by Human Capital Management (HCM) for persons who are certified as having a severe disability based on standards and criteria established by the Administrator of HCM. Such applicants must be legal residents of Oklahoma and must meet minimum qualifications specified in applicable job specifications. Rules implementing the provisions of 74 O.S. 840-4.12 are found at OAC 530:10-9-100 260:25-9-100. HCM rules refer to these provisions as the Optional Program for Hiring Applicants with Disabilities.

(b) For purposes of the Optional Program for Hiring Applicants with Disabilities, the Department of Rehabilitation Services (DRS) shall certify that an applicant has a severe disability according to the definition of "individual with a severe disability" in OAC 612:10-1-2, which the HCM Administrator has established as the standard for disability certification. DRS shall provide electronic or written verification of an applicant's severe disability to the applicant and to Human Capital Management.

(c) Counselors will document the severity of the disability using existing DRS case information for current or former clients. Individuals who have not been DRS clients will provide the counselor with documentation necessary for determining that the individual has a severe physical or mental impairment which seriously limits one or more functional capacities. Medical examinations may not be purchased solely to certify eligibility under 74 O.S. 840-4.12.
612:10-7-242. Pre-Employment Transition Services [AMENDED]

(a) **Students with a Disability.** Vocational Rehabilitation (VR) must collaborate with local educational agencies (LEAs) to provide, or arrange for the provision of, Pre-employment Transition Services (Pre-ETS) for all students with a disability in need of such services.

3. The definition of "Student with a Disability" applies to all students enrolled in educational programs, including postsecondary education programs or other recognized education programs, so long as they satisfy the age requirements. The definition is inclusive of secondary students who are homeschooled, as well as students in other non-traditional secondary educational programs.

wages/salary(ies). In this instance, the students are employees of the community employers, and DRS does not reimburse the employers for the wages/salary(ies).
The consumer can receive the services of the Instructional Services program while being served through the Vocational Rehabilitation counseling program. The staff member will provide comprehensive instructional services necessary for the consumer to meet the employment goal.

(1) **Referral from rehabilitation counselor.** Consumers who are legally blind or severely visually impaired receiving services through a rehabilitation counselor will be referred for Rehabilitation Teaching and Orientation & Mobility (O & M) services. Through the diagnosis and evaluation process the staff member gathers information to aid in determining needs for instructional services.

(2) **Rehabilitation teaching services in joint cases.** Important services provided by the teacher include evaluation and training in areas related to employment which include but are not limited to consumer and family adjustment to blindness, competence in communication, job readiness skills, personal management, home management, and basic orientation to immediate surroundings to facilitate safe mobility at home and work.

(3) **Orientation and Mobility referral for joint cases.** Important services provided by the O & M Specialist include, but are not limited to, evaluation and training for safe travel in the workplace, cane travel, preparation for dog guide, and local transportation usage.

(4) **Joint service status.** When it is determined a consumer can benefit from both instructional and counseling services the instructional staff and counselor, through consultation with each other and the consumer, will each develop a program of services. During the provision of services, the counselor and instructional staff will share pertinent information including narrative recording, through regular contact and case staffing. The formation of the instructional service plan should include objectives and services to be provided.

(5) **Closing joint cases.** When preparing a joint case for closure, the instructional staff and counselor will consult one another to determine readiness for closure.
612:10-9-15. Case status [REVOKED]

(a) As a case moves through the rehabilitation teaching process the major activities being conducted at any given time are reflected by the status classification system, as outlined in DRS policy on case statuses.
612:10-9-17. Application Status [REVOKED]

(a) A case is placed in Application Status when the individual submits an application with DVR or DVS in accordance with agency policy.

(b) A decision of eligibility or ineligibility must be made within 60 days of the completed application unless unforeseen and exceptional circumstances beyond the control of the Department indicate the need for an extension as documented on the Need for Extension of Time to Determine Eligibility form. The consumer must agree an extension of time is warranted after full consultation.

(c) The rehabilitation teacher will conduct an initial interview and document it in a narrative summary. The consumer and/or representative will be given an explanation of consumer rights and responsibilities and information about the Client Assistance Program and mediation procedures in a medium which is understandable to the individual and in their preferred medium. The teacher will document this in the case record. The consumer will be offered the opportunity to register to vote at time of application and/or time of address change.
A case will be closed from Application Status when it has been determined an applicant is ineligible for rehabilitation teaching services, if the applicant fails to cooperate, moves out of state, refuses services, dies, cannot be located, or if all services are being provided through other resources. The teacher will document in the case recording the decision for closing the case.
612:10-9-19. Eligibility Status [REVOKED]

(a) The case is moved into Eligibility Status when the individual is certified as eligible. The teacher will evaluate the case information and determine if the consumer meets the criteria given in (1)-(3) of this Subsection.

(1) Consumer is legally and/or functionally blind or has a rapidly progressive condition which is expected to result in legal blindness. If there is a difference in near and distance acuity, the worse acuity is used for determination of eligibility.

(2) Consumer has identifiable deficiencies in homemaking skills due to severe vision loss.

(3) It is expected services will improve the consumer’s homemaking skills and independence in his/her community.

(b) The teacher is responsible for making a determination of eligibility on each consumer requesting rehabilitation teaching services within 60 days of application and a letter of determination of eligibility will be provided in the consumer’s preferred format. A certification of legal blindness signed by a physician, a comprehensive functional assessment provided by the rehabilitation teacher, or certificate of eligibility for talking book services, can be used to document eligibility for the Rehabilitation Teaching Program.

(c) While in eligibility status, the comprehensive assessment is completed to provide a basis for the formation of the consumer’s IPE. The comprehensive assessment is used to determine the scope and nature of services to be provided to accomplish the consumer’s objectives. The teacher will address the consumer’s diagnosis as reported by documented medical and psychological report or as determined by the teacher’s evaluation. The teacher will identify the specific functional limitations which prevent the individual from functioning in the home or community. The teacher will describe the consumer’s strengths, weaknesses and how proposed services will increase the consumer’s potential to achieve his/her goal of homemaker.

(d) After the consumer has been determined eligible, the teacher starts the process of developing the Individualized Plan for Employment (IPE). In the development of the program, the teacher will make a determination of the consumer’s present level of adjustment and his/her physical and emotional capacities for acquiring specific adaptive skills.

(1) The teacher with the consumer’s participation will develop an IPE establishing a homemaking objective. The goals, objectives and services provided directly or indirectly will be included in the IPE. A homemaker is defined as a person whose primary work is performance of duties related to the upkeep and maintenance of a home. This work takes place in the individual’s own home, without remuneration.

(A) The IPE can have a vocational objective of homemaker only when services will directly and substantially improve the individual’s ability to perform the primary homemaking work activities for their home.

(B) A vocation objective of homemaker can be established for only one person within the same household.

(2) The narrative recording will include documentation of the consumer’s participation in the development of the IPE and all pertinent information. A copy of the IPE will be provided to the consumer in their preferred reading medium.
(3) The IPE must be completed and signed as soon as possible, consistent with the needs of the individual, but not more than 90 calendar days following the eligibility determination, unless the individual or the authorized representative and the rehabilitation teacher jointly agree to an extension of time for a specific duration.
(a) Cases remain in Service Status as long as program services are being provided to the consumer. While in this status, periodic narrative recordings will be entered in the case file describing services being provided and the teacher’s involvement. After development of the IPE, the teacher will begin instructional services to address the identified objectives. The consumer should expect continual instructional services until it is agreed upon by the teacher and consumer that the goals have been achieved or mutual agreement for case closure.

(b) In some cases, due to an alteration in the consumer’s situation or needs, it may be necessary to amend the original program. Program amendments are only necessary when there has been a substantial change in the program effecting client services. Such amendments will be developed with consumer participation and a copy of the amendment will be provided the consumer in their preferred reading medium.
612:10-9-21. Successful Closure [REVOKED]

(a) A successful closure is when the planned program of services has been completed and/or the consumer has achieved his/her homemaking goal.

(b) The client, or the client’s authorized representative as appropriate, will be a full participant in the decision to close the case. The last discussion of the closure decision with the client, or the client’s authorized representative, will be held within 30 days of the closure, and will be documented in a case narrative. The client will also be given a copy of the closure letter in their preferred reading format and advised of the availability of Post-Employment Services. The closure narrative will substantiate the services provided and how they contributed to the client's function as a homemaker.
An unsuccessful closure is when it has been determined that services cannot be successfully completed. The consumer or his/her representative must be informed as to the reason for case closure.
612:10-9-24. Closed from Eligibility Status [REVOKED]

(a) Cases closed from Eligibility Status are those which, although accepted for Rehabilitation Teaching services, did not progress to the point where services were actually initiated.

(b) When a case is closed from Eligibility Status, closure is recorded in the case record and a letter written to the client. The client will be given the opportunity to fully participate and to express his/her views of the decision. A copy of the closure will be given to the client, or as appropriate, the client's representative in the consumer's preferred reading format.
612:10-9-25. Post-Employment Service Status [REVOKED]

(a) Post-Employment services may be provided to assist rehabilitated clients to retain, regain, or advance in independence. These services must continue to follow the guidelines delineated for homemaking services.

(b) Planning and provision of post-employment services will be assessed at initiation of the IPE. Ongoing assessment continues during case services, is documented as needed, and is reassessed just prior to case closure. Counseling and guidance is the primary service around which all other post-closure services are provided. Cases reopened on a post closure basis do not require re-establishment of eligibility. Any homemaking service or combination of services necessary to assist the individual to retain, regain, or advance in independence, may be provided if the service(s) do not involve a complex or comprehensive effort unrelated to the original IPE. If comprehensive services are indicated, a new application is taken. Federal regulations forbid the setting of arbitrary time limits on the provision of Post-Employment services. If the original case has been closed for a long period of time, the Agency must carefully review the client's situation before making the decision to provide Post-Employment services as opposed to opening a new case.

(c) Decisions to terminate Post-Employment services must be made on an individual basis in consultation with the client and will be recorded in the case record. The Agency will need to work with the individual to achieve a satisfactory level of self-sufficiency independent of post-closure support.

(d) In Post-Employment Service Status an IPE and a narrative program summary are developed as prescribed in policy on Eligibility Status. The same principles of client involvement are required in the IPE for Post-Employment services as are required under any other IPE. Case recording will be made at significant times during the process, including assessment of progress and the results achieved at the completion of termination of services.

(e) All cases terminated from Post-Employment Service Status will be closed in Post-Employment Closure status.

(a) Only those cases terminated from Post-Employment Service status can be closed in this status. The case can be closed as soon as the services in the Post-Employment services amendment have been completed insofar as possible and the client has been consulted regarding the closure decision.

(b) Documentation of closure of Post-Employment Services is recorded into the case record and a letter written to the client.
Through diagnosis and evaluation the rehabilitation teacher gathers information to aid in determining eligibility as well as goals and strategies that may be included in the IPE.

1. **Diagnosis.** The teacher must determine the medical causes of impairments to recognize the problems of each consumer and how they affect the ability to function. Individual differences and capabilities will be considered. The teacher will secure medical and/or psychological information when possible. If the teacher’s evaluation indicates a need for medical or psychological treatment the specialist will refer the consumer to outside resources for help if it is not within the scope of rehabilitation teaching.

2. **Vocational evaluation.** The rehabilitation teacher plays an important role in the evaluation of a consumer’s ability to benefit from rehabilitation services in terms of the employment outcome.

   (A) The rehabilitation teacher evaluates the consumer’s characteristics and skills based on observation and assessment.

   (B) An important service provided by the teacher is the initial evaluation of the consumer’s adjustment to vision loss and ability to function independently. Areas to be evaluated include, but are not limited to, consumer and family attitudes toward blindness, degree of competence in communication, personal management, home management, and basic orientation to immediate surroundings.

3. **Family evaluation.** The teacher must be aware of the family influence on the rehabilitation outcome that can be expected for an individual.

4. **Community evaluation.** Visual impairment may restrict consumer’s use of and access to community resources. Location, cost, eligibility, visual prerequisites, attitudinal barriers, and the level of consumer’s skills are to be considered when evaluating community resources.

5. **Evaluation of personal adjustment skills.** Prior to the development and implementation of the IPE, the rehabilitation teacher will thoroughly evaluate the consumer’s functional limitations and skills, to include basic skills such as home management, communication, personal management, health management, and adjustment to disabilities.
The consumer can receive the services of the Instructional Services program while being served through the Vocational Rehabilitation counseling program. The staff member will provide comprehensive instructional services necessary for the consumer to meet the employment goal.

(1) **Referral from rehabilitation counselor.** Consumers who are legally blind or severely visually impaired receiving services through a rehabilitation counselor will be referred for Rehabilitation Teaching and Orientation & Mobility (O & M) services. Through the diagnosis and evaluation process the staff member gathers information to aid in determining needs for instructional services.

(2) **Rehabilitation teaching services in joint cases.** Important services provided by the teacher include evaluation and training in areas related to employment which include but are not limited to consumer and family adjustment to blindness, competence in communication, job readiness skills, personal management, home management, and basic orientation to immediate surroundings to facilitate safe mobility at home and work.

612:10-11-1. Purpose [AMENDED]

(a) Older Blind Independent Living Services (OB) is a formalized program of services with the purpose of enhancing the ability of an individual with severe vision loss to live independently and function within his/her family and community even when he/she cannot gain or regain skills to fully perform duties of a homemaker. Older persons who have vision loss remain more independent when they learn new skills to help them adjust to blindness and make the most of their remaining vision. Through one-on-one instruction, they remain independent or reach this goal which increases confidence, self-esteem and quality of life.

(b) Personal adjustment services through OB are defined as services that allow control of one's life based on the choice of acceptable options which minimize reliance on others in decision making and in performing every day activities.
612:10-11-7. Administrative review [AMENDED]

Any individual who is an applicant or client of OB services must be advised of his/her right to request a timely review or a re-determination of any action taken by DRS staff. The review will be conducted by the Administrator for Visual Services for the Blind and Visually Impaired or his/her designee, who shall respond to the applicant or client in writing with the findings and conclusions of the review.

The interpreter/transliterator shall agree to abide by the Oklahoma Quality Assurances Ethical Standards National Association of the Deaf (NAD) and the Registry of Interpreters for the Deaf, Inc. (RID) Code of Professional Conduct. Federal, state, or other laws or regulations may supersede the Ethical Standards NAD-RID Code of Professional Conduct if a conflict is present between existing law or regulations and the Ethical Standards Code of Professional Conduct. The interpreter/transliterator will abide by the rule of the law.

(1) The interpreter/transliterator shall be dedicated to providing competent interpreting services in a manner befitting a professional.

(A) The interpreter/transliterator shall conduct him/herself in a manner which will reflect high standards of professionalism. This requires proper behavior suitable to the circumstances of the interpreting assignment.

(B) The interpreter/transliterator will dress appropriately to the circumstances of the interpreting assignment. Dress will be as unobtrusive as possible, and care will be taken to avoid cloth patterns or accessories which would interfere with clear perception of the consumer(s) through distraction or poor foreground/background contrast.

(C) The interpreter/transliterator will, to the maximum extent possible, choose positioning of themselves to avoid distracting backgrounds or inadequate lighting, and within comfortable visual/audible range of the consumer(s).

(D) The interpreter/transliterator will request compensation for services in a professional and judicious manner. The interpreter/transliterator will be knowledgeable of fees commensurate with their level of skill, level of certification, length of experience, and nature of the interpreting assignment, as well as fees customary to the geographic region.

(E) The interpreter/transliterator duty is to function fully as the support team interpreter/transliterator when engaged in a team assignment environment to assure the accuracy of the message is rendered.

(2) The interpreter/transliterator uses discretion in accepting assignments based upon language competency with regard to the setting and/or consumers involved and according to the Oklahoma interpreter certification Level of Limitations.

(A) The interpreter/transliterator will base acceptance of assignments upon his/her qualifications to handle the English language characteristically utilized in any given situation. If an interpreter/transliterator cannot understand the English language used, nor express it in sign language, or cannot maintain an acceptable pace, the interpreter/transliterator should not accept the assignment.

(B) The best practice for a professional interpreter/transliterator will be to make every reasonable effort to assess the language skills of the consumer(s) involved to determine his/her ability to understand and be understood in the given assignment by asking appropriate questions of the requestor of services, without asking the identity of the consumer. If this assessment prior to acceptance is not possible, the interpreter/transliterator should arrive at the assignment early to assess the language skills taking care that the communication exchange is not assignment related. At this time, the interpreter/transliterator may decide to proceed with the assignment, or decline the assignment. If the assignment is declined prior to the
assignment, or later during the assignment, assistance may be required in securing a more qualified interpreter to take the assignment at that time, or at a later scheduled time.

(C) A certification level is a guideline to what levels may be able to perform in various situations. If a Deaf individual deems an interpreter/transliterator as "qualified" they should be permitted to function as such, as long as it does not violate established Oklahoma interpreter certification Level of Limitations, regulations or laws.

(D) The interpreter/transliterator should be familiar with statutory requirements regarding interpreter qualifications in a state before accepting an assignment in that state which might require a higher level of certification.

(E) The interpreter/transliterator may decline or discontinue assignments if working conditions are not safe, healthy, or conducive to interpreting.

(F) The interpreter/transliterator may render pro-bono services providing it is a fair and reasonable manner.

(3) The interpreter/transliterator uses discretion in accepting assignments based upon the capacity to maintain impartiality with regard to the setting and/or consumers involved.

(A) The interpreter/transliterator should accept assignments only when the interpreter/transliterator feels comfortable dealing with the content of the communication in an impartial manner. If the personal feelings or beliefs of the interpreter/transliterator would interfere with rendering the message accurately, the interpreter/transliterator should withdraw from the assignment.

(B) Interpreters/transliterators should refrain from providing interpreter services in situations where family members, or close personal or professional relationships may affect impartiality.

(C) Interpreters/transliterators should strive for complete neutrality between consumers in the interpreting assignment. This neutrality can be compromised for various reasons. Whenever neutrality is compromised, it is the obligation of the interpreter/transliterator to assure that all affected consumers are duly advised and given the option of declining the interpreter/transliterator assignment.

(D) The interpreter/transliterator should avoid performing dual or conflicting roles while in the role as the interpreter/transliterator during the interpreting assignment.

(4) The interpreter/transliterator shall judiciously safeguard assignment-related information because it is confidential. Exceptions to confidentially include federal and/or state laws that mandate reporting a known crime or planning to commit a crime, fraud, or physical injury to the deaf person or another individual.

(A) A full-time interpreter/transliterator may provide information to his/her employer or other appropriate staff for purposes of record keeping, program management, or supervision without breaching confidentiality.

(B) The right to privacy is inalienable for all citizens. The interpreter/transliterator has a fundamental obligation to safeguard any confidential information acquired from any source during an interpreter assignment. Injudicious disclosures of
confidential information could adversely affect the consumer's reputation, and expose the interpreter/transliterator to liability.

(C) The interpreter/transliterator should consult legal counsel when in doubt concerning disclosure in a court of law, and professional rights and responsibilities.

(D) The interpreter/transliterator should inform consumers when federal or state mandates require disclosure of confidential information.

(5) The interpreter/transliterator shall provide information when necessary, to the consumers involved as to the role and appropriate use of the interpreter/transliterator. Assuring the education of consumers as to the proper use of an interpreter is a basic responsibility of the interpreter/transliterator. The experienced consumer may also provide such education. Consumer education should be succinct, and is best presented prior to an assignment to ensure a smooth communication exchange.

(6) The interpreter/transliterator conveys the content and affect of the communication transmitted using the language most easily understood by the persons involved in the communication/transaction.

(A) The interpreter/transliterator must transmit all communication in the exact way it is presented, conveying the speaker's intention. The interpreter/transliterator is not responsible for what is said or how it is said; only for conveying the message accurately and with the intended affect. The interpreter/transliterator shall withdraw from an assignment when his/her personal feelings interfere with rendering the message accurately with the intended affect.

(B) The interpreter/transliterator shall communicate in the manner most easily understood or preferred by the consumer(s), such as American Sign Language, Manually Coded English, finger spelling, gesturing, drawing, or writing.

(7) The interpreter/transliterator should not counsel nor interject personal opinion, but may exercise professional judgment in assessing whether or not communication is being understood and may also inform the consumers involved of available resources as appropriate.

(A) The interpreter/transliterator shall not step out of the role of communication facilitator by offering counsel or interjecting personal opinion. Exercising professional judgment and offering a professional opinion in assessing whether communication is being understood is not a breach of ethics.

(B) Recommending known and available resources to the consumer is considered within the professional role of the interpreter/transliterator. The interpreter's responsibility in this regard is only to inform in a courteous and helpful manner. It is the consumer's decision whether they wish to follow through with any recommendation.

(8) The interpreter/transliterator should pursue further knowledge and maintain competency in interpreting or transliterating skills. The interpreter/transliterator should strive to further knowledge and skills through active participation in workshops, professional meetings, interaction with professional colleagues, and reading of literature in the field.
(9) The interpreter/transliterater has a responsibility to be aware of and comply with all federal or state laws regulating specialized interpreting fields (educational, legal, mental health).
CHAPTER 15. OKLAHOMA LIBRARY FOR THE BLIND AND PHYSICALLY HANDICAPPED
612:15-1-3. Library functions and legal basis [AMENDED]

(a) The Oklahoma Library for the Blind and Physically Handicapped (OLBPH), operated by
the Division of Visual Services for the Blind and Visually Impaired within the Department of
Rehabilitation Services, is the regional library for Oklahoma as part of the national network
of libraries of the Library of Congress National Library Service (NLS) for the Blind and
Physically Handicapped.

(b) On March 3, 1931, the Pratt-Smoot bill authorized the Library of Congress to arrange
with other libraries to serve as local or regional centers to circulate books to blind or visually-
impaired users. By the end of fiscal 1966, Congress passed Public Law 89-522 extending
the service to library users who could not read standard print because of physical disability,
which can include certain reading disabilities. State law (7 O.S. Section 8 and 74 O.S.
166.4(B)(3)(b) and 166.5) establish that the Section of Services to the Blind (Visual Services
for the Blind and Visually Impaired) of the Commission for Rehabilitation Services has the
authority and duty to provide special library services to blind and visually impaired citizens.

(c) Functions of the Library include but are not limited to:

(1) Loan of books and periodicals in accessible formats for eligible adults and children
with visual, physical or learning disabilities that prevent effective use of standard print
materials;

(2) Production of recorded and Braille materials on request and on a limited basis,
subject to availability of resources. Fees may be established to cover the cost of
production. Services provided by OLBPH as part of the National Library Service will be
given priority over requests for production of reading materials in alternate formats;

(3) Acquisition, housing and circulation of Braille textbooks and other accessible
instructional materials for students with print disabilities in grades pre-K through 12;

(4) Improving access to print information for Oklahomans with print disabilities by
providing, through contract or directly, services that supply audio or electronic access to
newspapers, books, works by Oklahoma authors, educational programming, local and
state activities, and information on resources.

(5) Recruitment and training of volunteers to support library functions.
612:15-5-2. Suspension procedures [AMENDED]

In the event any of the rules in this Chapter are violated repeatedly, the borrower's service may be suspended for a period of time after being given a written warning and an opportunity to reply. If after reinstatement of services, abuse continues, service may be suspended again. In the event of suspension, these steps will be taken:

1. The library will first discuss the problem noted with the patron by telephone or in person, then will send a warning letter summarizing the discussion, the problem and, provide an opportunity for the patron to reply.

2. If service abuse reoccurs, a second written communication is sent to the patron citing the earlier warning letter, listing incidents of abuse, giving the patron an opportunity to reply by a certain date, and suspending the service for a stated period up to six months. A specific date for resumption of service is included. Service will be suspended only after a review by and upon the concurrence of both the administrative librarian and the Director Administrator of Visual Services for the Blind and Visually Impaired.

3. When the service is resumed, a letter will be sent to the borrower notifying him/her of the resumption of the service and reminding the patron that further reoccurrences will result in another suspension of service as it relates to the documented abuse.

An individual's application must be approved by the BEP operations coordinator prior to acceptance into the training program.

(d) **Notice regarding criminal background record and Oklahoma Sales tax background check.** Before entering training, BEP applicants will be informed that a criminal background investigation and an Oklahoma sales tax background check will be performed and may prevent their being licensed to manage some BEP facilities.

(e) **Duration of training.** To be eligible for licensure as a BEP facility manager an individual must complete the full BEP manager training program, unless the BEP operations coordinator, in consultation with the Chair of the Elected Committee of Licensed Managers, determines an exception is justifiable.

All capital equipment is purchased, inventoried, and disposed of in accordance with Department of Rehabilitation Services policy.

A licensed manager may acquire initial merchandise for resale by purchasing it with his/her own funds, utilizing self-employment assistance/start-up assistance/client services that may be available from DRS or other public and private sources, or use of a merchandise loan provided by the State Licensing Agency (SLA). When the SLA provides the manager a merchandise loan for initial merchandise, the manager is not allowed to utilize DRS start-up assistance for same purpose.

(b) Merchandise loan. When necessary to enable a licensed manager to acquire initial merchandise inventory, the SLA may extend a merchandise loan subject to the following terms:

1. The amount of the loan will be determined by the SLA in consultation with the licensed manager and based on an assessment of merchandise necessary to initiate sales. Loan amounts are also dependent upon available BEP funds.

2. The total amount of the loan will not exceed the average of the prior year’s inventories without approval from the BEP operations coordinator. This means the prior year’s inventories will be summed and then divided by twelve to obtain the average.

3. All merchandise purchased and placed on a merchandise loan must have prior approval by the SLA. The SLA will not make multiple purchases from any purveyor.

4. The incoming licensed manager, BEP business consultant and BEP operations coordinator will determine what may be purchased from the existing stock of the outgoing facility manager. Only salable merchandise may be purchased. The BEP business consultant and Operations Coordinator will also assist the outgoing manager in selling any remaining salable merchandise and its interim storage.

5. A merchandise loan must be repaid to the SLA by a licensed manager in monthly installments equaling two percent (2%) of monthly gross sales in monthly installments of no less than two percent of gross sales and not to exceed 12 consecutive payments to pay loan balance in full. A licensed manager shall not allow the facility inventory level to fall below that of the balance of the merchandise loan and are subject to disciplinary action should this occur. Licensed managers with outstanding merchandise loans are not eligible for transfer or assignment to another business enterprise. Managers receiving loans will sign a merchandise security agreement that will be retained on file by DRS and released to the manager when loan repayment is complete along with a letter from the BEP Operations Coordinator officially notifying the licensed manager of their full repayment of the loan.

6. When a merchandise loan is secured by stock, a licensed manager may not permit the ownership of the stock to vest in any person or organization other than the SLA.

7. When a licensed manager leaves a business enterprise, any remaining merchandise loan balance (and other unmet obligations to the SLA) will be subtracted from the ending inventory to determine the manager’s equity in the ending stock.

8. Merchandise loans are not allowed for satellite facilities unless extenuating circumstances prevail and only after approval of BEP Operations Coordinator in consultation with the ECM chair person.
(9) Merchandise loans for existing managers currently operating an "A" or B" classified facility as their primary may be granted at the discretion of the BEP Operations Coordinator in consultation with the ECM chair person.

(c) Failure of licensed manager to repay loan.

(1) If a licensed manager's merchandise loan payment is not received in the BEP office within five days after the due date, the licensed manager will be placed on probation and is not eligible to make application into the selection process. Merchandise loan payments are due at the time monthly reports and set-aside payments are due. (612:25-6-22)

(2) If a licensed manager's merchandise loan payment remains delinquent through the succeeding month and is not received in the BEP office within five days after the succeeding month's due date, the BEP operations coordinator will recommend suspension or termination of the operator's agreement by the SLA director unless an alternate repayment schedule has been approved by the SLA. The SLA will initiate action to collect a remaining merchandise loan balance when a loan payment is two months overdue.

(3) When a licensed manager leaves the program for any reason, the merchandise loan is due in full unless arrangements are made with the SLA to divide the balance into twelve (12) equal payments that will be due on the first day of each month.

(d) Second merchandise loan.

(1) Under documented extreme circumstances, a licensed manager who has paid off his/her previous merchandise loan may receive a second merchandise loan for the same facility when it has been determined that the loan is necessary to allow the licensed manager to remain in his/her facility.

(2) If a licensed manager requires a second merchandise loan while the first loan is still outstanding, other than for the expansion of his/her facility, he/she will be placed on probation until one of the loans is paid in full.

(3) Second merchandise loans for the purpose of facility expansion will be limited to 50% of the cost of additional salable merchandise needed.

(e) It is the incoming manager's choice to procure any accept or reject any and or all merchandise from the out-going manager. If this condition occurs, the outgoing manager must be given a one-week notice prior to the facility turnover to the new manager. The incoming manager must notify the business consultant and the outgoing manager of his/her intent of purchasing outgoing manager's inventory one week prior to the facility turnover.

(f) If the incoming manager rejects all of the outgoing manager's merchandise, the outgoing manager may be allowed two weeks to reduce his/her inventory, before transfer of facility. This two week period must be approved by the BEP Operations Coordinator in consultation with the ECM chair.

(g) In order to expedite the processing of merchandise loans, the outgoing manager must provide a merchandise price list to the business consultant on or before the day of the inventory count.

These resolutions shall be accomplished through the informal administrative review process whenever possible. A licensed manager has the right to request a full evidentiary hearing at any time within established due process time lines. These timelines are identified later in this policy.

1. If the complaint cannot be resolved with an informal administrative review, or in the absence of an informal administrative review, the licensed manager may request a full evidentiary hearing. The request for a full evidentiary hearing must be made to the BEP Operations Coordinator in writing within 30 calendar days from the date the licensed manager receives the notification of adverse action, or the written report of the informal administrative review. 3. Reasonable accommodations will be arranged by the SLA upon the request of the licensed manager.

4. The hearing will be scheduled by the SLA for a time and place convenient and accessible to the licensed manager and the SLA staff involved in the hearing. The licensed manager will be notified of the place and time of the hearing and the right to be represented by legal or other counsel in writing.

5. The hearing will be conducted by an impartial and qualified official with no involvement or vested interest in the SLA, action at issue, or with the operation of the affected business enterprise. The presiding officer will conduct the hearing in accordance with State and/or Federal laws and rules governing the conduct of such hearings.

(6) The hearing officer’s determination will be based upon the facts as presented by both parties and upon applicable law and the existing rules of the SLA. The hearing officer does not have the power to rule upon the legality or construction of the rules themselves. The officer's decision will determine the relevant issues and facts to be ruled upon.

(7) The hearing officer shall make a written report of the evidence presented, the laws and rules used in determining a resolution, and the resolution itself. This is the first step in the disciplinary process. If proper results are not achieved, suspension or termination of the BEP License may be necessary.

(b) **Initiation of probation procedure.** The BEP Operations Coordinator will place licensed managers on probation through a probation letter. A statement will be included which indicates it has been read and understood by the licensed manager, followed by a space for the licensed manager's and business consultant's signature, and the date. This acknowledgement does not imply that the licensed manager agrees with the issues identified, but rather, that he/she understands the terms of his/her probation. Refusal to sign does not invalidate the letter.

(d) **Probationary periods.** Probationary periods are usually 30 to 90 days, at the discretion of the BEP Operations Coordinator, but may be longer or shorter as circumstances warrant. The exact period of probation will be specified in the probationary letter.

(e) **Consequences.** The Licensed Manager or the business consultant may submit a request to the BEP Operations Coordinator that the licensed manager be taken off probation whenever the licensed manager's performance improves to a satisfactory level. (b) Funds will be set aside only for the purpose of:

2. the purchase of new equipment;
3. management services;
4. assuring a fair minimum of return to licensed managers; or
5. the establishment and maintenance of retirement or pension funds and health insurance contributions.
